St Andrew girls are already building robots for Jamaica. Hack 876 gives more of them a day to build.

Hack 876 is a one-day build competition bringing about 80 Jamaican secondary-school students together to turn ideas into working prototypes.

KINGSTON • FEB 20, 2027 (TENTATIVE) • ~80 BUILDERS • TEAMS OF 3–4

01 ALREADY ON BOARD

Campion College and Hillel Academy are already in.

The inaugural Hack 876 is taking shape. We would like St Andrew students in the room with them.

Campion College

CONFIRMED SCHOOL

Hillel Academy

CONFIRMED SCHOOL

7 CONFIRMED JUDGES

Working at Tesla, Microsoft, Meta, Google, Accenture, Diageo, HashiCorp.

FREE FOR STUDENTS

No cost to apply. Food is provided on the day.

VENUE CONFIRMED

Spanish Court Hotel, Kingston.

SUPPORTED BY

Lev Beauty, Vault Motors, Norus Technologies, Frankies.

02 WHY ST ANDREW

St Andrew already builds.

In October 2026 two St Andrew sixth formers were on Team Jamaica at the FIRST Global Robotics Olympics in Incheon, one of them as team captain. Jamaica came home with gold for innovation in engineering.

Hack 876 adds students from other schools, a fixed deadline, industry mentors and judges who ask teams to explain their decisions. It gives the girls behind Polar Gears, and the ones who have not tried building yet, one day to make something real.

Life More Abundant
The school's motto, from John 10:10.

Robotics Olympics
Two sixth formers on Team Jamaica in October 2026, including the team captain.

Women in STEM
A May 2026 Guardian Group Foundation grant to the Robotics Club for kits, parts and competitions.

Coding winners
First place at the 2024 Flow Girls in ICT Day coding challenge.

Digital early
An early Bring Your Own Device school, with an approach later shared with the Ministry of Education.

> **"We honour our history, but we are always looking at what's next, what is good for the girls."**
>
> Mrs. Keeva Ingram, Principal, St Andrew High School for Girls · Jamaica Observer, September 2025

One of our judges is an old girl.

CONFIRMED JUDGE

Netania Mundell

St Andrew → UWI → NYU

Now: Diageo

Employers are listed as each person's affiliation. They are not event sponsors unless stated elsewhere.

Netania Mundell, a confirmed Hack 876 judge, went to St Andrew. She will be in the room on the day, judging what students build.

One day. Build something real.

~80 TOTAL BUILDERS

3–4 PER TEAM

1 DAY

A hackathon is an event where small teams build something from scratch in a single day, then present it to judges. No programming experience is needed: teams also need students who design, research, write and present. Mentors who work in industry help throughout the day.

STEP 1

Think

Find a real problem worth solving.

STEP 2

Build

Turn the idea into a working prototype.

STEP 3

Ship

Get it running before the clock stops.

STEP 4

Present

Demo it to judges and explain the decisions.

Websites · Apps · AI tools · Games · Hardware · Data projects · Automations · Agents · Interactive experiences

Not an AI-only hackathon. Teams build whatever the problem needs.

More than a project.

It won't decide anyone's career. It gives students a useful early signal about whether building technology excites them.

Teamwork
Working with people who think differently.

Scoping
Learning what can really be built in a day.

Technical problem solving
Turning a concept into something that works.

Decision making
Choosing between ideas under real constraints.

Communication
Explaining what they built to judges and peers.

Resilience
Shipping something even when it isn't perfect.

Exposure
Meeting students and professionals beyond their usual circle.

Confidence
Moving from using technology to making it.

06 PARTICIPATION

St Andrew in the room.

Hack 876 is for students in 5th Form through Upper 6th Form. Participating schools recommend students, and recommended students apply. No place is assumed until applications and selection happen.

8–12

PLANNING RANGE · NOT GUARANTEED

For early planning, a cohort of roughly 8–12 St Andrew students fits the scale we're considering. With about 80 places across participating schools, final representation depends on applications and overall capacity.

Teams of 3–4. Students can apply solo or with friends, and teams may mix schools. Final team-formation rules are still being finalized.

WHAT WE'D LIKE FROM ST ANDREW

1. A 15-minute call with Mrs. Ingram, or a faculty leader she nominates.
2. Support in principle for eligible St Andrew girls, in Grades 11 to 13, to take part.
3. A school-side contact, possibly from the Robotics Club or IT.
4. Help reaching girls in robotics, IT, the sciences, design and business.
5. Guidance on permissions and communication with parents.

We're not asking St Andrew for financial support, or to organize anything. Hack 876 runs the event, the applications, the judging and the participant materials.

07 COMPETITION

Build it. Present it. Compete for it.

Prizes across overall placement and special categories. The exact package will keep developing as sponsors are finalized, and participating schools will get updates.

OVERALL PLACEMENT

Hack 876 Winner
The whole thing. Best overall build.
iPad per student (up to 4)

Second Place
So close. Still brilliant.
AirPods Pro per student (up to 4)

Third Place
On the podium.
US$150 gift card per student (up to 4)

SPECIAL AWARDS

Best Design
Looks great. Feels even better.
US$50 gift card per student (up to 4)

Boldest Idea
The swing nobody else took.
US$200 team project grant

People's Choice
Voted by the room.
US$50 gift card per student (up to 4)

Categories are set. Prize items are tentative and may change. Prizes are a bonus, not the reason to come.

Fifteen minutes to start.

We would like St Andrew to be part of the first Hack 876. The first step is a short call with the school's leadership.

PREPARED FOR

Mrs. Keeva Ingram

Principal · St Andrew High School for Girls

Principal since 2019 · St Andrew old girl

We'd welcome 15 minutes with Mrs. Ingram, or with Mrs. Abigail James, Upper School Vice Principal, or another faculty leader she nominates.

The Hack 876 organizing team runs event operations, applications and all official communication with students and parents.

This is an invitation. St Andrew High School for Girls has not confirmed participation, nobody at the school has accepted a role, and student places are not guaranteed.

THE ONE THING WE'RE ASKING FOR NOW

A 15-minute call with Mrs. Ingram, or a faculty leader she nominates.

Pick a time at calendly.com/hack876-info/30min, or write to info@hack876.com.

We'll fill in the details together.

St Andrew doesn't need every answer today to join the conversation.

FIRST
A 15-minute call with Mrs. Ingram or a faculty leader she nominates.

IF ST ANDREW AGREES
Support in principle, and a school-side contact.

THEN
Teachers share the opportunity, and girls apply.

BEFORE THE EVENT
Accepted students and their families receive consent forms.

EVENT DAY
Hack 876.

DECIDED

- One-day build competition
- Venue: Spanish Court Hotel, Kingston
- 5th Form through Upper 6th Form
- About 80 places
- Schools recommend, students apply
- Applications are open

PLANNED

- Tentative date: Saturday, February 20, 2027
- A 8:00 AM to 7:30 PM day
- Lunch on the day
- Overall and special prize categories
- Industry judges and mentors

BEING FINALIZED

- Confirming the date
- School-level allocations and team rules
- Cost and transport
- Prize items
- Family details: supervision, food, emergency contacts

Participating schools and applicants will receive detailed information as each part of the event is finalized.

LIFE MORE ABUNDANT · THE SCHOOL'S MOTTO, FROM JOHN 10:10.

St Andrew promises life more abundant. Let's give a few St Andrew girls one day to build something real.
