HACK876 × GUARDIAN GROUP FOUNDATION

PRIVATE PARTNERSHIP PROPOSAL

Curious is where it starts.

Guardian hopes its scholars stay ambitious, curious and committed to excellence. Hack876 gives young Jamaicans one day to be all three, with something real they built to show for it.

Kingston, Jamaica · Feb 20, 2027 (tentative)

80
STUDENTS

9
SCHOOL NETWORK

1
DAY

One day to build something that should exist.

01 WHAT IS HACK876?

Meet Hack876.

Hack876 is a one-day build competition for approximately **80 secondary-school students** from 5th Form through Upper 6th Form, working in teams of 3 to 4, roughly 20 teams in all, on Saturday, February 20, 2027 (tentative).

Teams pick a real problem, use modern tools including AI, get guidance from mentors, and finish the day with a working prototype and a pitch to judges. It is not a school assignment and there is no answer key.

Our **9-school network** in Kingston is made up of the schools where the Hack876 team currently has relationships and can coordinate most reliably. It is not an exclusive eligibility list.

BUILD SOMETHING THAT SHOULD EXIST.

Innovation and academic development, in one room.

Hack876 is where curious students find out what they can build, and a Guardian award would tell them it was worth the try.

GUARDIAN GROUP, COMMUNITY CONNECTIONS

“We serve and support our communities across the region with specific areas of focus on: Innovation, Leadership Development, Academic Development, Health and Wellness.”[2]

In 2026 the Guardian Group Foundation gave a Women in STEM Grant to the St Andrew High School for Girls Robotics Club, for advanced robotics kits and parts and for competition participation.[3]

Over 20 years, Guardian has invested more than J$70 million in scholarships and grants, supporting more than 200 students.[4]

Its scholarships reach beyond policyholders and employees, to top national performers and to primary schools in selected communities.[5]

Twenty years of betting on students.

WOMEN IN STEM · 2026

Robotics at St Andrew High School for Girls.

A J$200,000 grant to the school's Robotics Club for advanced robotics kits and parts, and for competition participation.[3]

SINCE 2005

A scholarship programme that kept growing.

Started in the GSAT era and carried through to PEP, it now supports students at several stages of school.[4]

20 YEARS

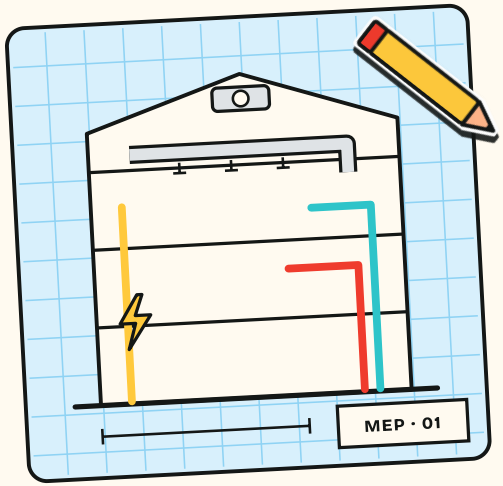

More than J$70 million.

Invested in scholarships and grants, supporting more than 200 students through their education.[4]

2026

Reaching into communities.

Community scholarships go to students from primary schools in selected communities, including Edward Seaga Primary in Denham Town.[5]

Guardian already invests in students who are curious about science. Hack876 is one more place for that curiosity to turn into something built.

9 schools. One room.

Guardian's 2026 Women in STEM Grant went to the St Andrew High School for Girls Robotics Club. St Andrew is in the Hack876 school network; its participation is not yet confirmed.[3]

Hack876 begins with the schools where we already have relationships and can coordinate most reliably for the inaugural staging. Formal confirmations are still in progress, and the network is not an exclusive eligibility list.

- Hillel Academy
- Campion College
- Jamaica College
- Immaculate Conception High School
- Wolmer's
- Ardenne High School
- American International School of Kingston
- **St. Andrew High School for Girls**
- St. George's College

05 TWO WAYS IN

There are two natural homes for this inside Guardian.

Guardian Group Foundation enquiries go through GuardianGroupFoundation@myguardiangroup.com at Guardian Life Limited, 12 Trafalgar Road, Kingston 5.[6]

FOUNDATION

A Guardian special award

- Contribute toward a special award
- A proposed Women in STEM award, if it fits
- Presented on stage by the Guardian team
- Small, specific and easy to report on

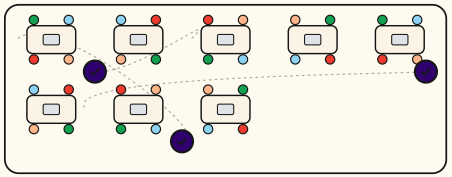

PEOPLE

Guardian technologists in the room

- IT and transformation staff as mentors
- A short talk on technology careers in insurance
- Help on the day with set check-in windows

Guardian's contribution does not have to be purely financial.

PEOPLE IN THE ROOM.

01
Mentors

Technologists who help teams get unstuck, without building the project for them.

02
Award presenters

The Guardian team presents its award on stage at the close.

03
Speaker

A short, honest talk on what technology work inside an insurer looks like.

04
Judging support

Guardian staff can advise on the award criteria; the final call sits with the judging panel.

05
Volunteers

Staff who help with check-in, meals and keeping the day on time.

GROUND RULES WE WILL HOLD OURSELVES TO

No marketing of insurance, pensions or other financial products to students, and no sign-ups on the day.

No collection of student contact details or data by sponsors. Photos and names only with school and parent consent.

Sponsor staff mentor and present; the judging panel decides every award.

Become a Bronze Partner of the inaugural Hack876.

J$50,000 to below J$200,000

BRONZE PARTNER · INAUGURAL HACK876

It is close in size to the Women in STEM Grant Guardian already gives, and it puts a Guardian name on a moment students will remember.

Any amount within the level is welcome. It is a flexible contribution toward the event, with no naming rights attached.

PROPOSED RECOGNITION

Guardian Group Foundation

Bronze Partner · Inaugural Hack876

Closest Hack876 tracks: Wellbeing, Life, Learn

CONTRIBUTION LEVELS. ANY AMOUNT WITHIN A LEVEL IS WELCOME.

Bronze Partner	Silver Partner	Gold Partner	Platinum Partner
SUGGESTED			
J$50,000 to below J$200,000	J$200,000 to below J$500,000	J$500,000 to below J$1,000,000	J$1,000,000+

In-kind & Community Support: devices, gift cards, meals, refreshments, supplies, connectivity, expertise, and contributions below J$50,000.

08 CONTRIBUTION LEVELS

What each level receives.

Bronze Partner

J$50,000 to below J$200,000

OUR SUGGESTION

- Recognition on the Hack876 website
- Included in the grouped sponsor thank-you
- Named in the post-event recap

Silver Partner

J$200,000 to below J$500,000

- Everything in Bronze
- Placement on event signage
- Acknowledgement in the opening and closing

Gold Partner

J$500,000 to below J$1,000,000

- Everything in Silver
- More prominent placement
- A dedicated sponsor feature
- Logo on event shirts, if shirts are produced*

Platinum Partner

J$1,000,000+

- The most prominent sponsor placement
- An agreed opportunity to take part in the programme
- Logo on event shirts, if shirts are produced*

These are proposed benefits, to be agreed when a sponsorship is confirmed. A sponsor can contribute any amount within a band.

*Shirt placement applies only if event shirts are produced and artwork arrives before the production deadline.

Speaking, mentoring, presenting an award and judging are subject to suitability and programme capacity. Sponsorship does not buy influence over judging, and no level carries naming rights.

09 WHERE A CONTRIBUTION GOES

No contribution has to cover a whole cost.

WHAT A CONTRIBUTION COULD SUPPORT

- ✓ **Special awards.** Helps support an existing special award.
- ✓ **Programming.** Helps support mentoring, judging and the student programme.

A sponsor can support the event overall, or agree a specific use with the Hack876 team. No contribution has to cover a whole cost.

In-kind & Community Support

For devices, gift cards, meals, refreshments, supplies, connectivity, expertise, and for contributions below J$50,000.

A meaningful in-kind contribution can be recognized at an equivalent level, based on a usable value agreed together. The advertised value of software credits or volunteer hours is not counted as cash automatically.

AN IDEA, NOT YET A HACK876 AWARD

Guardian Women in STEM Award (proposed)

A suggestion only: an award for the strongest build from a team where girls led the technical work, with criteria agreed together. It would carry the spirit of the grant Guardian already runs.

10 A DIRECT LINE

There is no faceless sponsorship process here.

This proposal is for **Debby Livingstone, Vice President, Corporate Resources, Guardian Life Limited**.[1]

If Guardian is interested, we can decide together what involvement should actually look like.

QUESTIONS WE WOULD ANSWER TOGETHER

- ✓ Will St Andrew High School for Girls take part?
- ✓ How would a Women in STEM award be judged, and who decides?
- ✓ When and where is it?
- ✓ What exactly would our contribution pay for?
- ✓ How are students protected on consent, data and marketing?
- ✓ How much time would our IT team need to give?

A conversation, not a workload.

Deliberately focused.

Our vision is national. This inaugural staging does not have national-event resources, and we will not pretend it does.

Approximately 80 students. A school network of 9 in Kingston. One day, done properly.

Build the first one well.
Learn from it.
Earn the right to make the second one bigger.

2027

Help make the first Hack876 happen.

No multi-year commitment required.

FUTURE POSSIBILITIES, ONLY IF BOTH SIDES FIND IT VALUABLE. NOT COMMITMENTS.

- A recurring Guardian Women in STEM Award at every Hack876.
- Introductions between award winners and Guardian's scholarship community.
- Girls' robotics clubs Guardian already supports entering as teams.
- A Guardian technologist on the mentor bench each year.

HACK876 × GUARDIAN GROUP FOUNDATION

Somewhere in that room may be a future founder, engineer, designer or leader.

They do not need us to decide who they become.

They need an opportunity to begin.

HELP US BUILD THAT OPPORTUNITY.

We would love to explore the right first step with Debby and the Guardian Group Foundation team.
