HACK876 × REPLIT

PRIVATE PARTNERSHIP BRIEF

From idea to live URL in one day.

Hack876 gives Jamaican high-school students one day to build something real for their own communities. We would love Replit credits in the hands of the teams that want to ship on Replit.

Kingston, Jamaica · Feb 20, 2027 (tentative)

80	9	1
STUDENTS	SCHOOL NETWORK	DAY

One day to build something that should exist.

Meet Hack876.

Hack876 is a one-day build competition for approximately **80 secondary-school students** from 5th Form through Upper 6th Form, working in teams of 3 to 4, roughly 20 teams in all, on Saturday, February 20, 2027 (tentative).

Teams pick a real problem, use modern tools including AI, get guidance from mentors, and finish the day with a working prototype and a pitch to judges. It is not a school assignment and there is no answer key.

Our **9-school network** in Kingston is made up of the schools where the Hack876 team currently has relationships and can coordinate most reliably. It is not an exclusive eligibility list.

BUILD SOMETHING THAT SHOULD EXIST.

Builders should spend the day building.

Not every Hack876 student owns a strong laptop. A browser and a good idea should be enough to ship something real.

REPLIT, ABOUT

“Our mission is to make turning an idea into working software as intuitive as drawing a picture or writing a story.”[1]

Replit supports hackathons and coding events with credits, so participants can build, deploy and ship real projects throughout the event.[2]

Those credits cover Replit Agent, deployments and compute during the event.[2]

Replit runs in the browser. Participants sign up, start building and deploy, all in one place.[2]

Replit for Education equips students and educators to build real apps with AI, with no setup.[3]

Built for a room full of teams.

ANY HACKATHON

Big or small.

Replit says it is happy to consider any hackathon or coding event, in person or virtual, for credit support.[2]

TEAMS

Build together, not in turns.

Several people can work in the same project at once, each starting their own threads with Agent on a shared board.[4]

WORKSPACES

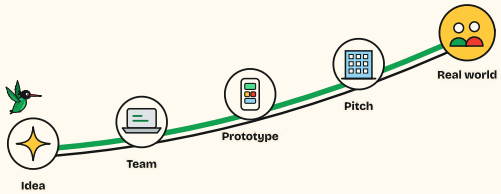

One place for a group.

A team workspace gives a class or team access to every project inside it, with billing and settings managed by an admin.[5]

PUBLISHING

Live in a few clicks.

Publishing lets builders share a Replit App with the world through a simplified process.[6]

Replit already backs events where people build fast and ship. Hack876 is one more, in Kingston.

04 THE SCHOOL NETWORK

9 schools. One room.

Hack876 begins with the schools where we already have relationships and can coordinate most reliably for the inaugural staging. Formal confirmations are still in progress, and the network is not an exclusive eligibility list.

- Hillel Academy
- Campion College
- Jamaica College
- Immaculate Conception High School
- Wolmer's
- Ardenne High School
- American International School of Kingston
- St. Andrew High School for Girls
- St. George's College

05 THE WAY IN

Where this fits inside Replit.

Replit's Terms of Service say users must be at least 13, and anyone under 18 must have a parent or guardian's permission to use the Service.[7]

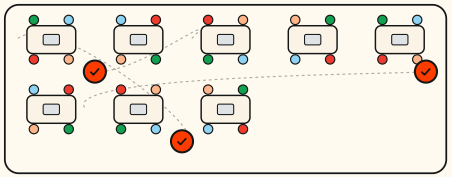

EVENT SUPPORT

Replit's event credit request

- We submit Replit's event support request form, with this brief in "Tell us about your event"
- The form asks for an event date, so we confirm the date with Replit before or as we submit
- Replit's team reviews the request and decides whether and how it can help

Replit's contribution does not have to be purely financial.

People in the room.

01
Pre-event session

A short remote walkthrough from blank prompt to published app, before hacking starts.

02
Remote mentors

Replit builders on a call during build hours to help teams get unstuck.

03
Organiser guidance

Advice on setting up credits and workspaces for a one-day event with under-18s.

04
Award presenter

Someone from Replit presents the proposed Shipped on Replit recognition, by video or in person.

GROUND RULES WE WILL HOLD OURSELVES TO

No marketing, sign-up drives or promotions aimed at students. Replit is presented as one option among many, and teams may use any tools they like.

No student data collected for, or shared with, Replit. Any account is between a student, their parent or guardian and Replit, under Replit's own terms.

We follow Replit's age and account terms. Students without a parent or guardian's permission are never asked to work around them.

07 THE ASK

Replit credits for every team that wants to ship.

Replit event credits for the teams that choose Replit, so they can build with Agent and publish a working app by the end of the day. Teams that prefer other tools build with those instead.

Possible structures:

- **Organiser-held: credits sit with adult organiser and mentor accounts, or an organiser-run team workspace, rather than with students.**
- **Opt-in teams: a student uses Replit only with a parent or guardian's permission, in line with Replit's terms.**
- **Whatever Replit recommends for events with under-18 participants.**
- **If no route fits, Replit stays optional and teams build with other tools.**

AGE AND ACCOUNT TERMS

Replit's Terms of Service say users must be at least 13, and anyone under 18 needs a parent or guardian's permission to use the Service. Most Hack876 students are under 18, so any student who uses Replit would do so only with that permission, and Hack876 will not create student accounts or promise any student an account. Replit has not approved access for our students, and we will follow whatever Replit advises.

Build Tools Partner · Inaugural Hack876

Every option at a glance.

THE ASK

Access

INAUGURAL HACK876

Replit event credits for the teams that choose Replit, so they can build with Agent and publish a working app by the end of the day. Teams that prefer other tools build with those instead.

SHIPPED ON REPLIT (PROPOSED)
One award, shaped together.

Proposed

IN-KIND & COMMUNITY SUPPORT
Devices, Gift cards, Meals, Refreshments, Supplies, Connectivity, Expertise.

In kind

PEOPLE IN THE ROOM
Pre-event session, remote mentors, organiser guidance, award presenter.

Time

The size of the commitment can change. The invitation to be part of the first one does not.

09 A DIRECT LINE

There is no faceless sponsorship process here.

This proposal is for **Replit Events team, Replit event support program**.[2]

If Replit is interested, we can decide together what involvement should actually look like.

QUESTIONS WE WOULD ANSWER TOGETHER

- ✓ What is the event date?
- ✓ How will under-18 students get permission to use Replit?
- ✓ Will teams have to use Replit?
- ✓ Who holds the credits, and how are they shared out?
- ✓ Will any student data come to Replit?
- ✓ What would you need from us, and by when?

A conversation, not a workload.

Deliberately focused.

Our vision is national. This inaugural staging does not have national-event resources, and we will not pretend it does.

Approximately 80 students. A school network of 9 in Kingston. One day, done properly.

Build the first one well.
Learn from it.
Earn the right to make the second one bigger.

2027

Help make the first Hack876 happen.

No multi-year commitment required.

FUTURE POSSIBILITIES, ONLY IF BOTH SIDES FIND IT VALUABLE. NOT COMMITMENTS.

- A recurring credits pool for every Hack876.
- A showcase of Hack876 projects published on Replit.
- Teacher introductions to Replit for Education at Hack876 schools.
- A practice build day before the main event, for students who want a head start.

HACK876 × REPLIT

Somewhere in that room may be a future founder, engineer, designer or leader.

They do not need us to decide who they become.

They need an opportunity to begin.

HELP US BUILD THAT OPPORTUNITY.

We would love to explore the right first step with the Replit Events team.
