HACK876 × SEPROD FOUNDATION

PRIVATE PARTNERSHIP PROPOSAL

Real-world problems need young builders.

The Seprod Foundation wants Jamaican children equipped to solve real-world problems and lead in science and technology. Hack876 gives secondary students one day to do exactly that, in teams, with a working build to show at the end.

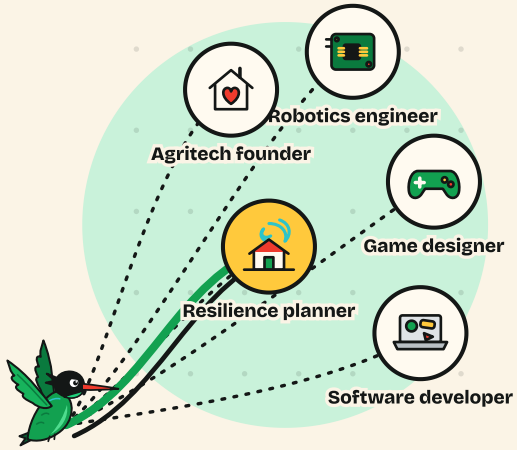

Kingston, Jamaica · Feb 20, 2027 (tentative)

80	9	1
STUDENTS	SCHOOL NETWORK	DAY

One day to build something that should exist.

What if young Jamaicans experienced themselves as builders before anyone told them what career they should have?

Before the degree.

Before the first job.

Before anyone hands them a title.

There is usually a first moment when someone realizes: I can build this.

For most young people, that moment arrives late, if it arrives at all.

Hack876 is designed to create more of those moments.

Meet Hack876.

Hack876 is a one-day build competition for approximately **80 secondary-school students** from 5th Form through Upper 6th Form, working in teams of 3 to 4, roughly 20 teams in all, on Saturday, February 20, 2027 (tentative).

Teams pick a real problem, use modern tools including AI, get guidance from mentors, and finish the day with a working prototype and a pitch to judges. It is not a school assignment and there is no answer key.

Our **9-school network** in Kingston is made up of the schools where the Hack876 team currently has relationships and can coordinate most reliably. It is not an exclusive eligibility list.

BUILD SOMETHING THAT SHOULD EXIST.

03 NOT JUST APPS

A hackathon is bigger than software.

Hack876 is an open build competition. Teams choose the problem and the medium.

Some will write code. Some will wire circuits. Some will design a service, a business or a tool nobody has thought of yet.

A team might build:

- A piece of software
- An AI tool
- An automation
- A data product
- A tool for small businesses
- Hardware
- A robot
- A physical prototype
- A resilience solution
- Something none of us expected

The medium does not matter.

The instinct to create does.

Hack876 is the next step after the code and the robots.

Hack876 is where secondary students take those skills and build something real in a single day.

THE SEPROD FOUNDATION

“The Seprod Foundation is the philanthropic arm of Seprod Group, dedicated to supporting sustainable community development in Jamaica.”[2]

STEAM education is one of the Foundation's three pillars, alongside food security and community upliftment.[2]

Lisa D'Oyen: "Our goal is to create opportunities for all Jamaican children to thrive in the digital age."[1]

Since WRO came to Jamaica in 2018, the Foundation has been presenting sponsor of what it calls the first Robotics Competition in Jamaica.[3]

Lisa D'Oyen has called STEM education "one of the foundation's primary pillars of focus."[4]

Its food security pillar works to grow interest in agriculture at the secondary and tertiary school levels.[2]

A portfolio built around young people trying things.

SINCE 2018

World Robot Olympiad Jamaica

Presenting sponsor of WRO Jamaica from its first year, alongside the national organisers.[3]

2025

A free coding challenge

Open to grades 4 to 12 at no cost. 297 students took part in Round 1 and 220 advanced to the in-person finals.[1]

JULY 2025

Robotics Outreach Day

About 100 children tried encryption, 3D printing, coding, engineering and robotics, co-sponsored with AFJ.[1]

GAME DESIGN

Ubisoft Game Creators' Odyssey scholarships

75% scholarships for a 90+ hour game design course. Fellows designed games around education, agriculture or community.[5]

30+ YEARS

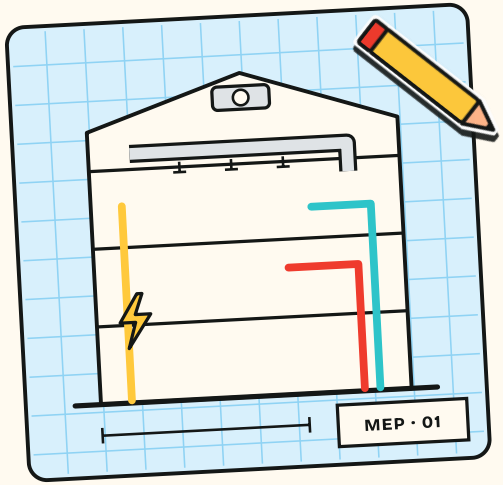

Scholarships

The Foundation has been providing scholarships for over 30 years.[6]

2026

Seaford Town Community Resilience Hub

Structural repairs and a solar energy system so the hub can keep serving the community through power cuts and emergencies.[7]

Coding, robotics and game design are already in place. Hack876 adds a day where older students put them together to solve a problem they chose.

06 THE SCHOOL NETWORK

9 schools. One room.

Hack876 begins with the schools where we already have relationships and can coordinate most reliably for the inaugural staging. Formal confirmations are still in progress, and the network is not an exclusive eligibility list.

- Hillel Academy
- Campion College
- Jamaica College
- Immaculate Conception High School
- Wolmer's
- Ardenne High School
- American International School of Kingston
- St. Andrew High School for Girls
- St. George's College

There are two natural homes for this inside the Seprod Foundation.

PATH 1 · THE FOUNDATION

A STEAM pillar grant

- Fits the STEAM education pillar directly
- A contained, one-day commitment
- Contributes toward the prizes students compete for
- Followed by a written recap with photos and outcomes

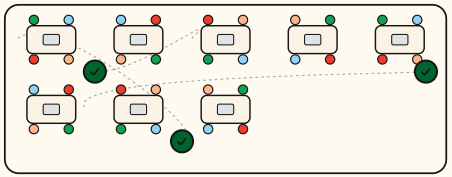

PATH 2 · PEOPLE

Time and expertise from the Seprod team

- A Foundation judge for impact and real-world value
- Mentors from manufacturing, operations or supply chain
- Volunteers on the day

The Seprod Foundation's contribution does not have to be purely financial.

People in the room.

01
Judge

Lisa D'Oyen or a Foundation colleague on the panel, judging for impact and real-world problem solving.

02
Mentors

Seprod people from manufacturing, logistics or operations helping teams think through how things really get made and moved.

03
Volunteers

A small team on the day helping with check-in, lunch and the demo floor.

04
Speaker

A Foundation scholar or programme alumnus sharing what came after their first build.

05
Challenge input

A real food security or community resilience problem teams could choose to take on.

GROUND RULES WE WILL HOLD OURSELVES TO

Many participants are minors. There is no marketing or product sampling aimed at students, and no student contact details are shared with sponsors.

Recognition stays with the Seprod Foundation name. Students are never asked to promote a brand.

Judging stays independent. A sponsored award is decided by the full judging panel against the published criteria.

09 AUDIENCE AND BRAND VALUE

The honest answer to the visibility questions.

Will the Seprod Foundation be visible? Yes, across event materials, programming and post-event storytelling, at a level that matches the partnership.

Is the audience relevant? It is the next generation of Jamaican builders, professionals and leaders, met early.

Can it build longer relationships? Yes, through people, schools and a second year, not through leads.

WHO IS IN AND AROUND THE ROOM

Ambitious secondary-school students
Approximately 80 of them, from 5th Form through Upper 6th Form.

Parents and families
Who see who showed up for their children.

Teachers and school communities
Across our network of 9 schools in Kingston.

Future university students
Making choices about what to study and where.

Future founders and professionals
Meeting the Seprod Foundation early, and in the right way.

Many participants are minors. We will not promise leads, reach, impressions or data.

Become a Gold Partner of the inaugural Hack876.

J$500,000 to below J$1,000,000

GOLD PARTNER · INAUGURAL HACK876

The Foundation already backs youth competitions, so contributing toward the prizes is a familiar, contained ask. It puts the Seprod Foundation name on the moment students remember most.

Any amount within the level is welcome. It is a flexible contribution toward the event, with no naming rights attached.

PROPOSED RECOGNITION

Seprod Foundation

Gold Partner · Inaugural Hack876

Closest Hack876 tracks: Resilience, Learn, Life, Wildcard

CONTRIBUTION LEVELS. ANY AMOUNT WITHIN A LEVEL IS WELCOME.

Bronze Partner	Silver Partner	Gold Partner	Platinum Partner
J$50,000 to below J$200,000	J$200,000 to below J$500,000	SUGGESTED J$500,000 to below J$1,000,000	J$1,000,000+

In-kind & Community Support: devices, gift cards, meals, refreshments, supplies, connectivity, expertise, and contributions below J$50,000.

What each level receives.

Bronze Partner

J$50,000 to below J$200,000

- Recognition on the Hack876 website
- Included in the grouped sponsor thank-you
- Named in the post-event recap

Silver Partner

J$200,000 to below J$500,000

- Everything in Bronze
- Placement on event signage
- Acknowledgement in the opening and closing

Gold Partner

J$500,000 to below J$1,000,000

OUR SUGGESTION

- Everything in Silver
- More prominent placement
- A dedicated sponsor feature
- Logo on event shirts, if shirts are produced*

Platinum Partner

J$1,000,000+

- The most prominent sponsor placement
- An agreed opportunity to take part in the programme
- Logo on event shirts, if shirts are produced*

These are proposed benefits, to be agreed when a sponsorship is confirmed. A sponsor can contribute any amount within a band.

*Shirt placement applies only if event shirts are produced and artwork arrives before the production deadline.

Speaking, mentoring, presenting an award and judging are subject to suitability and programme capacity. Sponsorship does not buy influence over judging, and no level carries naming rights.

No contribution has to cover a whole cost.

WHAT A CONTRIBUTION COULD SUPPORT

- **Prizes.** Contributes toward the prizes for the top teams.
- **Special awards.** Helps support an existing special award.
- **Programming.** Helps support mentoring, judging and the student programme.

A sponsor can support the event overall, or agree a specific use with the Hack876 team. No contribution has to cover a whole cost.

WAYS TO HELP WITH A PRIZE

The planned prizes are iPad per student (up to 4); AirPods Pro per student (up to 4); gift card per student (up to 4). Any of these helps:

- **Donating the item**
- **Donating some of the quantity needed**
- **Gift cards or store credit**
- **A discount on the purchase**
- **A monetary contribution toward buying it**

In-kind & Community Support

For devices, gift cards, meals, refreshments, supplies, connectivity, expertise, and for contributions below J$50,000.

A meaningful in-kind contribution can be recognized at an equivalent level, based on a usable value agreed together. The advertised value of software credits or volunteer hours is not counted as cash automatically.

AN IDEA, NOT YET A HACK876 AWARD

Seprod Foundation Resilience Award (suggestion)

One idea: an award for the best Resilience-track build, in the spirit of the Foundation's community resilience work. A food security award would fit just as well. We would shape it together.

13 A DIRECT LINE

There is no faceless sponsorship process here.

This proposal is for **Lisa D'Oyen, Executive Director, Seprod Foundation**.[1]

If the Seprod Foundation is interested, we can decide together what involvement should actually look like.

QUESTIONS WE WOULD ANSWER TOGETHER

- ✓ How is Hack876 different from the competitions we already support?
- ✓ When and where will it happen, and which schools are confirmed?
- ✓ What exactly will our money pay for, and how will we hear about the results?
- ✓ Can students from the communities we work with take part?
- ✓ Who is running Hack876, and who is judging?
- ✓ How are students under 18 kept safe on the day?

A conversation, not a workload.

Deliberately focused.

Our vision is national. This inaugural staging does not have national-event resources, and we will not pretend it does.

Approximately 80 students. A school network of 9 in Kingston. One day, done properly.

Build the first one well.
Learn from it.
Earn the right to make the second one bigger.

2027

Help make the first Hack876 happen.

No multi-year commitment required.

FUTURE POSSIBILITIES, ONLY IF BOTH SIDES FIND IT VALUABLE. NOT COMMITMENTS.

- A recurring Seprod Foundation award at every edition of Hack876.
- Hack876 as the secondary-school build day in a STEAM pathway that already runs from coding to robotics.
- A food security challenge co-designed with the Foundation's agriculture work.
- Bringing in students from communities the Foundation serves outside Kingston as Hack876 grows.

HACK876 × SEPROD FOUNDATION

Somewhere in that room may be a future founder, engineer, designer or leader.

They do not need us to decide who they become.

They need an opportunity to begin.

HELP US BUILD THAT OPPORTUNITY.

We would love to explore the right first step with Lisa and the Seprod Foundation team.
