HACK876 × SUPREME VENTURES FOUNDATION

PRIVATE PARTNERSHIP PROPOSAL

Junior Creators, grown up and building the future.

The Supreme Ventures Foundation has spent ten summers showing young Jamaicans what STEM can be. Hack876 gives secondary students one day to build a working answer to a problem they care about, in teams, with mentors beside them.

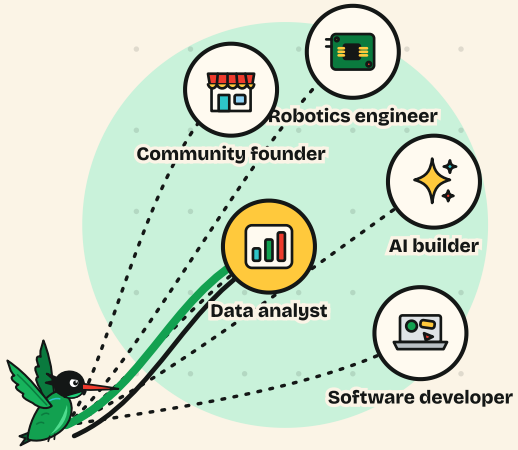

Kingston, Jamaica · Feb 20, 2027 (tentative)

80	9	1
STUDENTS	SCHOOL NETWORK	DAY

One day to build something that should exist.

What if young Jamaicans experienced themselves as builders before anyone told them what career they should have?

Before the degree.

Before the first job.

Before anyone hands them a title.

There is usually a first moment when someone realizes: I can build this.

For most young people, that moment arrives late, if it arrives at all.

Hack876 is designed to create more of those moments.

Meet Hack876.

Hack876 is a one-day build competition for approximately **80 secondary-school students** from 5th Form through Upper 6th Form, working in teams of 3 to 4, roughly 20 teams in all, on Saturday, February 20, 2027 (tentative).

Teams pick a real problem, use modern tools including AI, get guidance from mentors, and finish the day with a working prototype and a pitch to judges. It is not a school assignment and there is no answer key.

Our **9-school network** in Kingston is made up of the schools where the Hack876 team currently has relationships and can coordinate most reliably. It is not an exclusive eligibility list.

BUILD SOMETHING THAT SHOULD EXIST.

03 NOT JUST APPS

A hackathon is bigger than software.

Hack876 is an open build competition. Teams choose the problem and the medium.

Some will write code. Some will wire circuits. Some will design a service, a business or a tool nobody has thought of yet.

A team might build:

- A piece of software
- An AI tool
- An automation
- A data product
- A tool for small businesses
- Hardware
- A robot
- A physical prototype
- A resilience solution
- Something none of us expected

The medium does not matter.

The instinct to create does.

Imagination, innovation and collaboration, one step further.

Hack876 is the next rung: the same spirit of building and pitching, for students old enough to take an idea all the way to a working demo.

THE SUPREME VENTURES FOUNDATION

“Our mission goes beyond corporate responsibility, it’s about compassion in action, legacy through impact, and standing in the gap for at risk and vulnerable communities.”[2]

Heather Goldson on the Junior Creators Robotics Camp: "When we first conceptualised this camp in 2016, our vision was simple but powerful: to expose young Jamaicans to the exciting world of STEM in a creative environment that encourages imagination, innovation and collaboration."[1]

"It is a pleasure to see the growth in these children over just five days, and to know that some of them will carry these experiences forward into real careers is exactly the kind of impact we set out to create."[1]

At the 2026 camp, children worked on AI pattern recognition, coding, robotics, sensor-based contraptions and wearable technology, and pitched their ideas.[1]

Through Supreme Community Heroes, the Foundation backs people already creating change in their communities, with grants, a laptop and business development training.[4]

A decade of backing young Jamaicans.

2016	The Foundation conceptualises the Junior Creators Robotics Camp to expose young Jamaicans to STEM.[1]
2021	A 20th anniversary scholarship programme sends 20 scholars from State care to university.[3]
2026	The Supreme Community Heroes cohort is named, with project grants and capacity-building training for community entrepreneurs.[4]
2026	The 10th Junior Creators camp, themed "Build the Future", ends with educational grants for the top four campers. Two former campers have returned as facilitators.[1]
2026	A $100 million commitment to put 25 youth ageing out of State care through university.[3]

The Foundation already rewards young people who build, pitch and grow. Hack876 adds a single day where older students do exactly that, side by side with students from other schools.

06 THE SCHOOL NETWORK

9 schools. One room.

Hack876 begins with the schools where we already have relationships and can coordinate most reliably for the inaugural staging. Formal confirmations are still in progress, and the network is not an exclusive eligibility list.

- Hillel Academy
- Campion College
- Jamaica College
- Immaculate Conception High School
- Wolmer's
- Ardenne High School
- American International School of Kingston
- St. Andrew High School for Girls
- St. George's College

There are two natural homes for this inside the SVF.

The Foundation's focus areas include national development through improved access to education.[2]

PATH 1 · THE FOUNDATION

A Foundation prize grant

- Fits the Foundation's focus on education and national development
- A natural next step for students who grew up with camps like Junior Creators
- Recognition in the Foundation's name only
- Followed by a short written recap with photos and outcomes

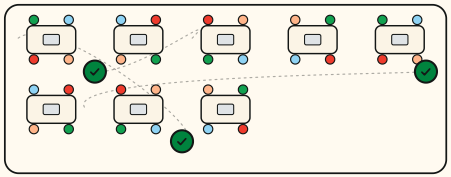

PATH 2 · PEOPLE

Time and expertise from the Foundation team

- Technology and innovation staff as judges or mentors
- A short talk on where building things can lead
- Volunteers on the day

The SVF's contribution does not have to be purely financial.

PEOPLE IN THE ROOM.

01
Judges

Technology and innovation staff on the panel, judging how well a build really works.

02
Mentors

Foundation people moving between teams on the day, helping students get unstuck.

03
Speaker

Heather Goldson or a colleague on the road from a first robot to a real career.

04
Alumni voices

Older Junior Creators alumni sharing what building early meant to them, if the Foundation feels it fits.

05
Volunteers

A small team helping with check-in, lunch and the demo floor.

GROUND RULES WE WILL HOLD OURSELVES TO

No gaming or lottery brands, products, games, odds or promotion anywhere near students, at the venue, in materials or online. Recognition uses the Supreme Ventures Foundation name and logo only.

Many participants are minors. Schools approve all sponsor visuals in advance, and no student contact details or data are shared with sponsors.

Judging stays independent. A sponsored award is decided by the full judging panel against the published criteria.

The honest answer to the visibility questions.

Will the SVF be visible? Yes, across event materials, programming and post-event storytelling, at a level that matches the partnership.

Is the audience relevant? It is the next generation of Jamaican builders, professionals and leaders, met early.

Can it build longer relationships? Yes, through people, schools and a second year, not through leads.

WHO IS IN AND AROUND THE ROOM

Ambitious secondary-school students
Approximately 80 of them, from 5th Form through Upper 6th Form.

Parents and families
Who see who showed up for their children.

Teachers and school communities
Across our network of 9 schools in Kingston.

Future university students
Making choices about what to study and where.

Future founders and professionals
Meeting the SVF early, and in the right way.

Many participants are minors. We will not promise leads, reach, impressions or data.

Become a Gold Partner of the inaugural Hack876.

J$500,000 to below J$1,000,000

GOLD PARTNER · INAUGURAL HACK876

The Foundation already funds educational grants for its top campers, so contributing toward the Hack876 prizes is a familiar, contained next step. If a smaller first step fits better, supporting food and the student experience would still mean a great deal.

Any amount within the level is welcome. It is a flexible contribution toward the event, with no naming rights attached.

PROPOSED RECOGNITION

Supreme Ventures Foundation

Gold Partner · Inaugural Hack876

Closest Hack876 tracks: Learn, Business, Life, Wildcard

CONTRIBUTION LEVELS. ANY AMOUNT WITHIN A LEVEL IS WELCOME.

Bronze Partner	Silver Partner	Gold Partner SUGGESTED	Platinum Partner
J$50,000 to below J$200,000	J$200,000 to below J$500,000	J$500,000 to below J$1,000,000	J$1,000,000+

In-kind & Community Support: devices, gift cards, meals, refreshments, supplies, connectivity, expertise, and contributions below J$50,000.

11 CONTRIBUTION LEVELS

What each level receives.

Bronze Partner

J$50,000 to below J$200,000

- Recognition on the Hack876 website
- Included in the grouped sponsor thank-you
- Named in the post-event recap

Silver Partner

J$200,000 to below J$500,000

- Everything in Bronze
- Placement on event signage
- Acknowledgement in the opening and closing

Gold Partner

J$500,000 to below J$1,000,000

OUR SUGGESTION

- Everything in Silver
- More prominent placement
- A dedicated sponsor feature
- Logo on event shirts, if shirts are produced*

Platinum Partner

J$1,000,000+

- The most prominent sponsor placement
- An agreed opportunity to take part in the programme
- Logo on event shirts, if shirts are produced*

These are proposed benefits, to be agreed when a sponsorship is confirmed. A sponsor can contribute any amount within a band.

*Shirt placement applies only if event shirts are produced and artwork arrives before the production deadline.

Speaking, mentoring, presenting an award and judging are subject to suitability and programme capacity. Sponsorship does not buy influence over judging, and no level carries naming rights.

No contribution has to cover a whole cost.

WHAT A CONTRIBUTION COULD SUPPORT

- **Prizes.** Contributes toward the prizes for the top teams.
- **Student meals.** Contributes toward meals and refreshments on the day.
- **Programming.** Helps support mentoring, judging and the student programme.

A sponsor can support the event overall, or agree a specific use with the Hack876 team. No contribution has to cover a whole cost.

WAYS TO HELP WITH A PRIZE

The planned prizes are iPad per student (up to 4); AirPods Pro per student (up to 4); gift card per student (up to 4). Any of these helps:

- **Donating the item**
- **Donating some of the quantity needed**
- **Gift cards or store credit**
- **A discount on the purchase**
- **A monetary contribution toward buying it**

In-kind & Community Support

For devices, gift cards, meals, refreshments, supplies, connectivity, expertise, and for contributions below J$50,000.

A meaningful in-kind contribution can be recognized at an equivalent level, based on a usable value agreed together. The advertised value of software credits or volunteer hours is not counted as cash automatically.

AN IDEA, NOT YET A HACK876 AWARD

SVF Build the Future Award (suggestion)

One idea: an award for the boldest working prototype, borrowing the 2026 camp theme. We would shape the name and criteria together.

13 A DIRECT LINE

There is no faceless sponsorship process here.

This proposal is for **Heather Goldson, Executive Director, Supreme Ventures Foundation**.[1]

If the SVF is interested, we can decide together what involvement should actually look like.

QUESTIONS WE WOULD ANSWER TOGETHER

- ✓ How will the Foundation appear at an event for students under 18, given the group's business?
- ✓ How is Hack876 different from the Junior Creators camp?
- ✓ Which schools are confirmed, and are they comfortable with a Foundation partnership?
- ✓ When and where will it happen?
- ✓ What exactly will our support pay for, and how will we hear about the results?

A conversation, not a workload.

Deliberately focused.

Our vision is national. This inaugural staging does not have national-event resources, and we will not pretend it does.

Approximately 80 students. A school network of 9 in Kingston. One day, done properly.

Build the first one well.
Learn from it.
Earn the right to make the second one bigger.

2027

Help make the first Hack876 happen.

No multi-year commitment required.

FUTURE POSSIBILITIES, ONLY IF BOTH SIDES FIND IT VALUABLE. NOT COMMITMENTS.

- A recurring Supreme Ventures Foundation award at every edition of Hack876.
- A Junior Creators to Hack876 pathway, so camp alumni hear about Hack876 when they reach upper school.
- Working with the Foundation and CPFSA to see whether eligible young people in State care could join a future cohort.
- A Business-track award in the spirit of Supreme Community Heroes, for builds that serve a community.

HACK876 × SUPREME VENTURES FOUNDATION

Somewhere in that room may be a future founder, engineer, designer or leader.

They do not need us to decide who they become.

They need an opportunity to begin.

HELP US BUILD THAT OPPORTUNITY.

We would love to explore the right first step with Heather and the Supreme Ventures Foundation team.
