HACK876 × USAIN BOLT FOUNDATION

PRIVATE PARTNERSHIP PROPOSAL

A day for young Jamaicans to dare to dream.

The Usain Bolt Foundation creates opportunities through education and cultural development. Hack876 gives secondary-school students one day to turn a bold idea into something real, and a Foundation award would tell them that idea counts.

DAY

One day to build something that should exist.

Meet Hack876.

Hack876 is a one-day build competition for approximately **80 secondary-school students** from 5th Form through Upper 6th Form, working in teams of 3 to 4, roughly 20 teams in all, on Saturday, February 20, 2027 (tentative).

Teams pick a real problem, use modern tools including AI, get guidance from mentors, and finish the day with a working prototype and a pitch to judges. It is not a school assignment and there is no answer key.

Our **9-school network** in Kingston is made up of the schools where the Hack876 team currently has relationships and can coordinate most reliably. It is not an exclusive eligibility list.

BUILD SOMETHING THAT SHOULD EXIST.

Education, culture and technology, for children.

Hack876 is a day when a young Jamaican's boldest idea gets taken seriously, often for the very first time.

USAIN BOLT FOUNDATION, OUR MISSION

“Creation of opportunities through education and cultural development for a positive change.”[1]

The Foundation's values include giving every child the opportunity to 'Dare to Dream', and its practices include embracing innovation and the use of technology.[1]

In 2021 the Foundation donated 150 laptops, valued at US$40,000, to schools in rural Jamaica.[2]

In 2020 it joined Microsoft UK to bring computer equipment to seven schools in Trelawny.[3]

In 2025 it gave J$6.1 million in cash and kind to six rural high schools to help student-athletes prepare for ISSA Champs.[4]

In 2026 it gave just under J$10 million so that more than 100 students in western Jamaica could start secondary school.[5]

Opportunity, one child at a time.

2013 — **A hands-on skills workshop.**
A three-day photography workshop in Kingston for 25 students aged 13 to 17, with Samsung Camera.[6]

2020 — **Computers for Trelawny.**
Computer equipment for seven Trelawny schools, in a joint effort with Microsoft UK.[3]

2021 — **150 laptops.**
Laptops for schools in rural Jamaica, valued at US$40,000, at a time when many children were learning online.[2]

2025 — **Backing high-school athletes.**
J$6.1 million in cash and kind for six rural high schools preparing for ISSA Champs.[4]

2026 — **Into secondary school.**
Just under J$10 million for more than 100 students starting secondary school, including J$1 million to each of eight partner high schools.[5]

The Foundation already puts technology and opportunity in children's hands. Hack876 is one day where students show what they can build with them.

9 schools. One room.

Hack876 begins with the schools where we already have relationships and can coordinate most reliably for the inaugural staging. Formal confirmations are still in progress, and the network is not an exclusive eligibility list.

BRONZE PARTNER · INAUGURAL HACK876

Any amount within the level is welcome. It is a flexible contribution toward the event, with no naming rights attached.

WHAT A CONTRIBUTION COULD SUPPORT

- **Special awards.** Helps support an existing special award.
- **Programming.** Helps support mentoring, judging and the student programme.

A sponsor can support the event overall, or agree a specific use with the Hack876 team. No contribution has to cover a whole cost.

In-kind & Community Support

For devices, gift cards, meals, refreshments, supplies, connectivity, expertise, and for contributions below J$50,000.

A meaningful in-kind contribution can be recognized at an equivalent level, based on a usable value agreed together. The advertised value of software credits or volunteer hours is not counted as cash automatically.

AN IDEA, NOT YET A HACK876 AWARD

Dare to Dream Award (proposed)

A suggestion only: the Foundation could back the award for the boldest idea of the day, named for its 'Dare to Dream' value. Criteria would be agreed together, and the judging panel would decide.

10 A DIRECT LINE

There is no faceless sponsorship process here.

This proposal is for **Rev. Winsome Wilkins, Chairman, Usain Bolt Foundation**.[1]

If the Usain Bolt Foundation is interested, we can decide together what involvement should actually look like.

QUESTIONS WE WOULD ANSWER TOGETHER

- ✓ Our focus is children at basic and primary level. Why a secondary-school event?
- ✓ Most of our giving is in rural and western Jamaica. Why Kingston?
- ✓ How would the Foundation's name be used, and who approves it?
- ✓ Who receives the funds, and how would we see the result?
- ✓ When and where is it?
- ✓ How are students protected on consent, data and marketing?

A conversation, not a workload.

Deliberately focused.

Our vision is national. This inaugural staging does not have national-event resources, and we will not pretend it does.

Approximately 80 students. A school network of 9 in Kingston. One day, done properly.

Build the first one well.
Learn from it.
Earn the right to make the second one bigger.

2027

Help make the first Hack876 happen.

No multi-year commitment required.

FUTURE POSSIBILITIES, ONLY IF BOTH SIDES FIND IT VALUABLE. NOT COMMITMENTS.

- A recurring Dare to Dream Award at every Hack876.
- Travel bursaries so students from the Foundation's partner high schools in western Jamaica can take part.
- A Hack876 edition in western Jamaica, shaped with the Foundation.
- Devices for award winners, building on the Foundation's laptop and computer donations.
- A junior edition for younger students, closer to the Foundation's primary-school focus.

HACK876 × USAIN BOLT FOUNDATION

Somewhere in that room may be a future founder, engineer, designer or leader.

They do not need us to decide who they become.

They need an opportunity to begin.

HELP US BUILD THAT OPPORTUNITY.

We would love to explore the right first step with Rev. Wilkins and the Usain Bolt Foundation team.
