HACK876 × SEPROD FOUNDATION

PRIVATE PARTNERSHIP PROPOSAL

Real-world problems need young builders.

The Seprod Foundation wants Jamaican children equipped to solve real-world problems and lead in science and technology. Hack876 gives secondary students one day to do exactly that, in teams, with a working build to show at the end.

WHAT HACK876 IS

A one-day build competition in Kingston for about 80 secondary-school students, 5th Form through Upper 6th Form, working in teams of 3 to 4. Teams pick a real problem and finish the day with a working prototype and a pitch to judges.

When: Saturday, February 20, 2027 (tentative)

Where: Spanish Court Hotel, Kingston (confirmed)

Who: About 80 students, roughly 20 teams

Organisers: Nadani Dixon and Stefen Ewers

WHY THE SEPROD FOUNDATION

The Seprod Foundation funds STEAM education so that Jamaican children can solve real-world problems, and already backs youth competitions.

WHAT WE ARE ASKING

A Gold contribution toward the prizes and the student programme.

Gold Partner: J$500,000 to below J$1,000,000. Any amount within the level is welcome.

WHAT IT MAKES POSSIBLE

Helps support the prizes for the top teams, and the mentoring and judging on the day.

WHAT THE SEPROD FOUNDATION RECEIVES

About 80 students complete a one-day STEAM build in teams. The Foundation receives Gold recognition and a written recap of what was built.

THE NEXT STEP

A conversation about whether the Foundation would consider supporting the inaugural event, at Gold or any other level. A detailed budget will follow before any formal commitment.

STEAM education is one of the Foundation's three pillars, alongside food security and community upliftment.[2]

Lisa D'Oyen: "Our goal is to create opportunities for all Jamaican children to thrive in the digital age."[1]

Since WRO came to Jamaica in 2018, the Foundation has been presenting sponsor of what it calls the first Robotics Competition in Jamaica.[3]

WHAT THE FOUNDATION ALREADY DOES

SINCE 2018

World Robot Olympiad Jamaica

Presenting sponsor of WRO Jamaica from its first year, alongside the national organisers.[3]

2025

A free coding challenge

Open to grades 4 to 12 at no cost. 297 students took part in Round 1 and 220 advanced to the in-person finals.[1]

JULY 2025

Robotics Outreach Day

About 100 children tried encryption, 3D printing, coding, engineering and robotics, co-sponsored with AFJ.[1]

GAME DESIGN

Ubisoft Game Creators' Odyssey scholarships

75% scholarships for a 90+ hour game design course. Fellows designed games around education, agriculture or community.[5]

Become a Gold Partner of the inaugural Hack876.

J$500,000 to below J$1,000,000

WHAT IT HELPS SUPPORT

- **Prizes.** Contributes toward the prizes for the top teams.
- **Special awards.** Helps support an existing special award.
- **Programming.** Helps support mentoring, judging and the student programme.

Hack876 as the secondary-school build day in a STEAM pathway that already runs from coding to robotics.

A food security challenge co-designed with the Foundation's agriculture work.

Bringing in students from communities the Foundation serves outside Kingston as Hack876 grows.

THE DECISION WE ARE ASKING FOR

A conversation about whether the Foundation would consider supporting the inaugural event, at Gold or any other level. A detailed budget will follow before any formal commitment.

Your contact: Nadani Dixon and Stefen Ewers, Hack876 organisers · info@hack876.com

We would love to explore the right first step with Lisa and the Seprod Foundation team.

GROUND RULES WE WILL HOLD OURSELVES TO

Many participants are minors. There is no marketing or product sampling aimed at students, and no student contact details are shared with sponsors.

Recognition stays with the Seprod Foundation name. Students are never asked to promote a brand.

Judging stays independent. A sponsored award is decided by the full judging panel against the published criteria.
