HACK876 × TANK-WELD

PRIVATE PARTNERSHIP PROPOSAL

Jamaica needs more young people who know they can build.

Tank-Weld began as a steel fabrication company and has spent years putting homework and computer centres into communities. Hack876 gives students one day to find out that building things is something they can do.

WHAT HACK876 IS

A one-day build competition in Kingston for about 80 secondary-school students, 5th Form through Upper 6th Form, working in teams of 3 to 4. Teams pick a real problem and finish the day with a working prototype and a pitch to judges.

When: Saturday, February 20, 2027 (tentative)

Where: Spanish Court Hotel, Kingston (confirmed)

Who: About 80 students, roughly 20 teams

Organisers: Nadani Dixon and Stefen Ewers

WHY TANK-WELD

Tank-Weld began as a steel fabrication company and has built computer and homework centres in Jamaican communities.

WHAT WE ARE ASKING

A Silver contribution toward the equipment and materials teams build with.

Silver Partner: J$200,000 to below J$500,000. Any amount within the level is welcome.

WHAT IT MAKES POSSIBLE

Teams can build something physical, not only something on a screen.

WHAT TANK-WELD RECEIVES

Silver recognition, and a written recap of what teams built, including any physical prototypes.

THE NEXT STEP

A reply on whether Tank-Weld would consider a contribution this year, at Silver or any other level.

01 WHY TANK-WELD

A company that builds, in a room full of students learning to.

Hack876 is not only about apps. Teams can build hardware, physical prototypes and tools for real industries, and they need to meet people who make things.

TANK-WELD, GIVING BACK

"Tank-Weld has a very strong sense of community."[1]

Tank-Weld was formed in 1970 as a steel fabrication company. Today the group also runs heavy haulage, equipment and piling businesses, and operates at the Rio Bueno port.[2]

Over the years it has built computer centres and homework centres, basketball courts and soccer stadiums, and repaired schools and churches.[1]

Since 2006 its scholarship programme has grown to more than 70 scholarships a year.[1]

WHAT TANK-WELD ALREADY BACKS

1970

Formed as a steel fabrication company.

It has since grown into a group that distributes building materials and manufactures several of its own steel products.[2]

2006

A scholarship programme begins.

Started to encourage education, it now awards more than 70 scholarships a year.[1]

2007

The Fiwi Centre opens in Waterhouse.

A computer and homework centre set up to give children in the community a safe place for homework help and basic computer classes.[3]

2024

The centre is re-equipped.

The JMMB Joan Duncan Foundation reports donating 15 computers to the Fi-Wi Homework Centre, which it describes as operated with the support of Tank-Weld Metals.[4]

02 OUR REQUEST

Become a Silver Partner of the inaugural Hack876.

J$200,000 to below J$500,000

SILVER PARTNER · INAUGURAL HACK876

Silver helps support the equipment and materials that let teams build something physical, not only something on a screen. If a different level suits Tank-Weld better, any of them is welcome.

- **Materials.** Contributes toward participant materials and supplies.
- **Programming.** Helps support mentoring, judging and the student programme.

These are proposed benefits, to be agreed when a sponsorship is confirmed. A sponsor can contribute any amount within a band.
