HACK876 × NORUS TECHNOLOGIES

PRIVATE PARTNERSHIP PROPOSAL

The most valuable thing Norus could bring to Hack876 is Norus.

Hack876 gives about 80 students one day to turn ideas into working prototypes. They will get further with people who build software for a living beside them.

WHAT HACK876 IS

A one-day build competition in Kingston for about 80 secondary-school students, 5th Form through Upper 6th Form, working in teams of 3 to 4. Teams pick a real problem and finish the day with a working prototype and a pitch to judges.

When: Saturday, February 20, 2027 (tentative)

Where: Spanish Court Hotel, Kingston (confirmed)

Who: About 80 students, roughly 20 teams

Organisers: Nadani Dixon and Stefen Ewers

WHY NORUS

Norus is a Jamaican-founded software company that already supports young developers through its internship programme and as a partner and sponsor of JamCoders.

WHAT WE ARE ASKING

Norus developers, designers and product people as mentors during the build period, in whatever number and shifts Norus can spare.

No funding is requested. A contribution at any level is welcome and never expected.

WHAT IT MAKES POSSIBLE

Teams get unblocked by working builders: cutting scope, debugging, checking a data model, rehearsing a demo.

WHAT NORUS RECEIVES

Mentorship Partner recognition, a Norus mentor help station and badges on the day, and a written recap.

THE NEXT STEP

A reply from Jermaine on roughly how many people could come, and for which part of the day. Hack876 provides the venue, the schedule and a briefing beforehand.

Nadani Dixon and Stefen Ewers, Hack876 organisers · info@hack876.com · Book a call: calendly.com/hack876-info/30min

NORUS MENTOR CORPS

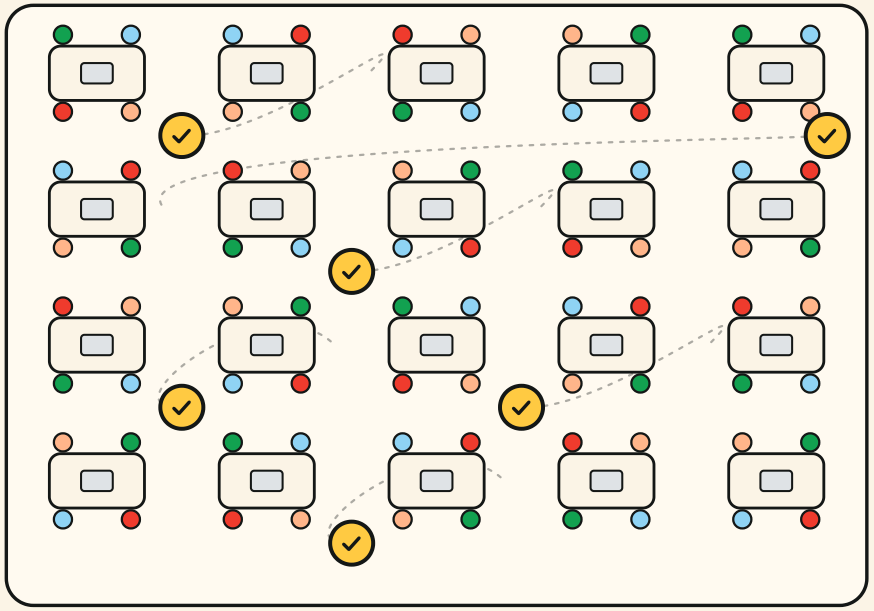

Bring the bench.

Hack876 can provide the room, the young builders, the problems, the energy and the clock.

Norus can provide something we cannot: people who build software for a living.

We would love Norus to bring as many of its team as it can reasonably make available, circulating among the 20 teams through the hacking period.

Not building the projects for students.
Helping students get unstuck.

20 teams, and a handful of Norus mentors moving between them.

02 WHAT A NORUS MENTOR ACTUALLY DOES

Ten small interventions that change a team's whole day.

01 Cutting an impossible scope into something buildable by 4 PM	**02** Debugging a blocker without taking over the keyboard	**03** Reasoning through architecture, APIs and integrations	**04** Reviewing a data model before it becomes a problem	**05** Asking whether a feature is actually necessary
06 UX and product thinking when the screen makes no sense	**07** Helping a team recover when its first idea fails	**08** Reviewing a demo before the judges see it	**09** Telling a student who thinks they are "not technical enough" that they are	**10** Translating professional habits into language a teenager can use

Students keep ownership of their work. Mentors guide; teams build.

03 NO MANDATORY HEADCOUNT

Bring as many builders as you reasonably can.

We will put them to work helping the next generation build. Norus does not need to commit its whole team for the whole day.

- A core group for the whole hacking period
- Specialists who drop in for set windows
- Jermaine and senior staff to mentor, judge or speak
- Rotating team members in shifts
- Developers who circulate for a few hours
- Any mix that is operationally realistic

ACROSS 20 TEAMS

4 mentors	≈ 5 teams each
8 mentors	≈ 2.5 teams each
12 mentors	≈ 1.7 teams each

Even a handful of Norus mentors could materially change the day. More is even better.

04 RECOGNITION

We do not just want the Norus logo in the room.

WE WANT NORUS IN THE ROOM.

PROPOSED RECOGNITION

Norus Technologies

Mentorship Partner · Inaugural Hack876

- "Norus Mentor Corps" identification on-site
- A small Norus mentor help station
- Recognition on the partner page once confirmed
- Students knowing exactly who Norus mentors are and where to find them
- Mentor badges or lanyard designation
- Recognition in opening and closing remarks
- Photography and recap content

05 DELIVERY AND NEXT DECISION

Who is running it, and what we need from you.

ORGANISERS	Nadani Dixon (Redfin) and Stefen Ewers (Georgia Tech) lead the event and are the contacts for this proposal.
VENUE	Spanish Court Hotel in Kingston is confirmed as the venue.
DATE	Saturday, February 20, 2027 is the working date. It is tentative until confirmed with schools.
JUDGES	7 judges have confirmed, from Tesla, Microsoft, Meta, Google, Accenture, Diageo, HashiCorp.

Schools: 2 confirmed, 1 in talks, 6 not yet confirmed, from a network of 9 in Kingston. Partners and donors do not receive student contact details, and there are no sign-ups or selling on the day. Photos and names are used only with school and parent consent.

THE DECISION WE ARE ASKING FOR

A reply on roughly how many Norus people could come, and for which part of the day.

Hack876 provides the venue, the schedule and a mentor briefing beforehand. Mentors can come for the whole build period or in shifts.

Your contact: Nadani Dixon and Stefen Ewers, Hack876 organisers · **info@hack876.com** · **Book a call: calendly.com/hack876-info/30min**

WHAT YOU WOULD RECEIVE AFTERWARDS: A WRITTEN RECAP

- ✓ **How many students, teams and schools took part**
- ✓ **What the teams built, with the finalist projects described**
- ✓ **How your contribution was used**
- ✓ **Photos, only where schools and parents have consented**

We will document the recognition delivered and report the results we have. Audience reach and commercial outcomes are not guaranteed. Student contact details are not shared.

05 CONTRIBUTION LEVELS

Mentors first. Everything else is welcome too.

If Norus would also like to contribute financially, these are the levels. Any amount within a level is welcome, and none of it is expected.

Bronze Partner

J$50,000 to below J$200,000

- Recognition on the Hack876 website
- Included in the grouped sponsor thank-you
- Named in the post-event recap

Silver Partner

J$200,000 to below J$500,000

- Everything in Bronze
- Placement on event signage
- Acknowledgement in the opening and closing

Gold Partner

J$500,000 to below J$1,000,000

- Everything in Silver
- More prominent placement on the website and event signage
- A dedicated sponsor feature**
- Logo on event shirts, if shirts are produced*

These are proposed benefits, to be agreed when a sponsorship is confirmed. A sponsor can contribute any amount within a band.

*Shirt placement applies only if event shirts are produced and artwork arrives before the production deadline.

**The form of the sponsor feature is agreed with each Gold or Platinum partner before it is confirmed.

The judging panel decides every award. Sponsorship does not buy influence over judging, and no level carries naming rights.

HACK876 × NORUS TECHNOLOGIES

A student may forget whose logo was on the wall.

They will remember the engineer who sat beside them when their project broke.

Hack876 gives young Jamaicans one day to discover what they can build. Jermaine, we would love Norus Technologies to put some of Jamaica's working builders in the room with them.

That is the invitation.
