HACK876 × LORING CONSULTING ENGINEERS

PRIVATE PARTNERSHIP PROPOSAL

Invest early in Jamaica's next engineers and builders.

Hack876 is open to hardware, energy and building-systems projects as well as software, the kind of problems Loring solves for a living.

WHAT HACK876 IS

A one-day build competition in Kingston for about 80 secondary-school students, 5th Form through Upper 6th Form, working in teams of 3 to 4. Teams pick a real problem and finish the day with a working prototype and a pitch to judges.

When: Saturday, February 20, 2027 (tentative)

Where: Spanish Court Hotel, Kingston (confirmed)

Who: About 80 students, roughly 20 teams

Organisers: Nadani Dixon and Stefen Ewers

WHY LORING

Loring opened its Kingston office in 2023, and its CEO, Oneil Gayle, was born and raised in Jamaica and began at Loring as a summer intern.

WHAT WE ARE ASKING

A Platinum contribution toward the inaugural event.

Platinum Partner: J$1,000,000+. Any level is welcome, and the levels are in the appendix. A detailed event budget will follow before any formal commitment is asked for.

WHAT IT MAKES POSSIBLE

Helps support the equipment teams build with, the prizes, student meals and the running of the day.

WHAT LORING RECEIVES

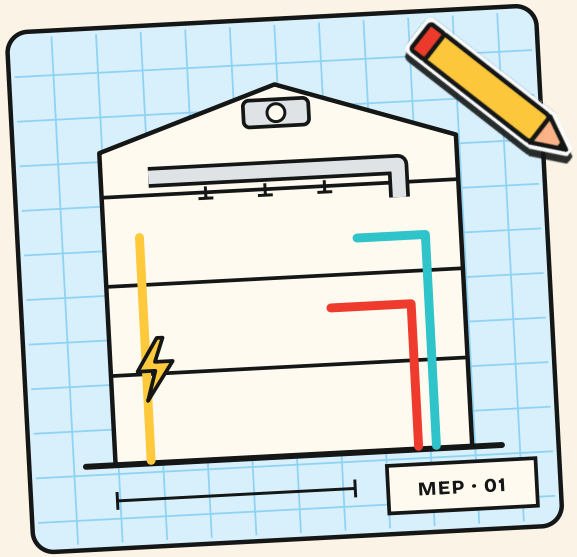

Platinum recognition for Loring, and a written recap of what teams built.

THE NEXT STEP

A conversation with Johnathan Clarke at Loring, who already works with Hack876, about whether Loring would consider supporting the inaugural event. A detailed budget will follow before any formal commitment.

Why Loring?

Because the alignment goes much deeper than sponsorship.

Loring has spent 70 years solving complex engineering problems.[1]

Today, that story increasingly includes Jamaica.

Loring opened its Kingston office in 2023 and formally launched the office in Jamaica in 2026.[2]

The reason matters.

CEO **Oneil Gayle**, born and raised in Jamaica, has spoken about wanting to help expand career pathways for engineers in Jamaica.[2]

Loring is already investing in engineering talent in Jamaica.

Hack876 creates an opportunity to begin that investment even earlier.

Before the internship.
Before the degree.
Before the first job application.

Become a Platinum Partner of the inaugural Hack876.

This is a flexible sponsorship contribution supporting the overall production and student experience of the inaugural Hack876.

- ✓ Event production

- ✓ Student experience
- ✓ Food and refreshments
- ✓ Signage and environment

04 EVIDENCE AND NEXT DECISION

What you would see afterwards, and what we need from you now.

WHAT YOU WOULD RECEIVE AFTERWARDS: A WRITTEN RECAP

- How many students, teams and schools took part

We will document the recognition delivered and report the results we have. Audience reach and commercial outcomes are not guaranteed. Student contact details are not shared.

OUR SUGGESTION

- Everything in Gold
- The most prominent placement on the website and event signage

These are proposed benefits, to be agreed when a sponsorship is confirmed. A sponsor can contribute any amount within a band.

*Shirt placement applies only if event shirts are produced and artwork arrives before the production deadline.

**The form of the sponsor feature is agreed with each Gold or Platinum partner before it is confirmed.

The judging panel decides every award. Sponsorship does not buy influence over judging, and no level carries naming rights.

PLANT THE SEED EARLY.

Jamaica already produces extraordinary talent.

The opportunity is to help more of that talent discover what it can become sooner.
