What parents and guardians need to know.

Hack 876 is a one-day competition for secondary-school students. Working in small teams, students build a solution to a real problem and present it to judges who work in technology and business. No coding experience is needed. It is supervised and it is not overnight. Hack 876 is organized independently of Wolmer's Girls' School.

WHEN
Saturday 20 February 2027

WHERE
Spanish Court Hotel, 1 St Lucia Avenue, Kingston 5, Jamaica

HOURS
8:00 AM to 7:30 PM, Jamaica time (UTC-5). One day, not overnight.

WHO
Students in 5th Form through Upper 6th Form

Supervision and safety

Students are supervised by Hack 876 staff and volunteers for the whole day, at the Spanish Court Hotel.

Still to be confirmed: The number of supervising adults and the written safeguarding procedures. Both will be sent to families before the event.

Consent

Every participant needs a consent form signed by a parent or guardian. Students receive the form after they register, and it is collected at the door at check-in.

Still to be confirmed: The exact wording of the form and how it is returned.

Food

Food is provided on the day, including lunch at 12:00 PM, with snacks and water. No alcohol. Tell us about allergies and dietary needs when you register, or email info@hack876.com.

Still to be confirmed: The menu.

Getting there and back

No transport has been arranged by Hack 876, so families should plan to bring students to the Spanish Court Hotel for 8:00 AM and collect them at 7:30 PM.

Still to be confirmed: Drop-off and pick-up procedures, and whether Wolmer's Girls' will arrange any transport.

Costs

No. Hack 876 is free for students. Food is provided on the day.

Laptops and devices

Yes. Every student needs to bring their own laptop and its charger. Hack 876 does not provide laptops; please bring your own.

Contact on the day

Every family will be given an on-site contact and the emergency procedure before the event. Before the day, the organizers can be reached at info@hack876.com.

Still to be confirmed: The on-site contact details.

AI tools and age limits

Not every AI tool is open to students under 18. Many AI tools are made by companies that set a minimum age for users, and some are for adults only. Students under 18 will not be asked or allowed to use an adults-only tool at Hack 876.

Still to be confirmed: Which tools are approved, and the age limit for each.

How to take part. Students register themselves on MLH at mlh.link/hack-876, with a free MyMLH account. Hack 876 is free for students. Anything marked "Still to be confirmed" will be sent to families before the event.
