How Campion can take part, without extra work.

Hack 876 is a one-day build competition for about 80 Jamaican secondary-school students, in teams of 3 to 4. Campion is not asked for money or to organize anything. Hack 876 runs the event and supplies the materials.

WHEN TENTATIVE
Saturday, February 20, 2027

WHERE
Spanish Court Hotel, Kingston

HOURS
8:00 AM to 7:30 PM. One day, not overnight.

WHO
Students in 5th Form through Upper 6th Form

HOW RECOMMENDING WORKS

1. Share this page with students in 5th Form through Upper 6th Form.
2. Recommend students you think would enjoy it. A short list through the faculty liaison is enough.
3. Recommended students then apply on the Hack 876 website themselves.
4. Hack 876 handles selection, consent forms and all event communication.

WHO TENDS TO DO WELL

- Curious students who like making things, in any subject.
- Students from Computer Science, IT, Maths, the Sciences, Art, Design or Business.
- Strong communicators, organizers and researchers, not only coders.
- Students who work well with people they have just met.

FACULTY LIAISON

Mrs. Keisha Morrison

Head of the Technology Department · Campion College

Mrs. Morrison has agreed to serve as Hack 876's faculty liaison at Campion: our point of contact in the department for coordination, recommendations and questions.

STUDENT AMBASSADORS · TO BE NOMINATED

Two student ambassadors are expected to be nominated, ideally one Lower Sixth and one Fifth Form student. No names have been chosen, and none will be published without permission.

- Help circulate official Hack 876 materials.
- Encourage eligible students to apply.
- Point common questions to this page.
- Pass questions and updates through the faculty liaison.

Planning range: 8 to 12 Campion students. This is provisional, not a quota. Every student applies and is selected individually, and a recommendation does not guarantee a place.

Mrs. Morrison's support is at faculty level. Formal approval from Campion College's administration has not been documented, and student places are not guaranteed.
