HACK876 × Campion

STUDENT FLYER

Build something real in one day.

Hack 876 is a one-day build competition for Jamaican secondary-school students. Pick a real problem, build a working prototype with a team of 3 to 4, and present it to judges who work in tech.

WHEN TENTATIVE
Saturday, February 20, 2027

WHERE
Spanish Court Hotel, Kingston

HOURS
8:00 AM to 7:30 PM. One day, not overnight.

WHO
Students in 5th Form through Upper 6th Form

YOU DO NOT NEED TO CODE

No programming experience is required. Teams need designers, researchers, storytellers, presenters and builders.

YOU COULD BUILD

Websites · Apps · AI tools · Games · Hardware · Data projects · Automations · Agents · Interactive experiences

AI is allowed, not required. Permitted tools will be announced.

HOW TO GET IN

1. Ask about it at Campion, or get recommended by a teacher.
2. Apply yourself at hack876.com/apply. Solo or with friends.
3. We read every application and let you know.

Places are limited to about 80 students across all schools. A recommendation does not guarantee a place.

Food is provided. Teams can mix schools. Prizes for the top teams.

Several judges and both organizers went to Campion. Questions? Everything is answered on the page below.
