HACK876 × SCOTIABANK JAMAICA (SCOTIARISE)

PRIVATE PARTNERSHIP PROPOSAL

Job-ready digital skills start before the first job.

ScotiaRISE helps young people build the skills to take part in the economy. Hack876 gives Jamaican secondary-school students a free day to build technology, with industry mentors and judges.

WHAT HACK876 IS

A one-day build competition in Kingston for about 80 secondary-school students, 5th Form through Upper 6th Form, working in teams of 3 to 4. Teams pick a real problem and finish the day with a working prototype and a pitch to judges.

When: Saturday, February 20, 2027 (tentative)

Where: Spanish Court Hotel, Kingston (confirmed)

Who: About 80 students, roughly 20 teams

Organisers: Nadani Dixon and Stefen Ewers

WHY SCOTIABANK

ScotiaRISE's Education pillar equips young people with the skills to thrive, and in Jamaica it already backs digital skills through CyberNauts.[1]

WHAT WE ARE ASKING

Support for Hack876 as an education and prize partner.

WHAT IT MAKES POSSIBLE

The prizes for the top teams, and the mentoring and judging that turn a first build into a skill students can show.

WHAT SCOTIABANK RECEIVES

Education Partner recognition, and a written report against the measures set out in this proposal.

THE NEXT STEP

A reply on whether ScotiaRISE would consider this. We will apply through Scotiabank's form with a registered non-profit partner.

01 WHY SCOTIABANK

Economic resilience starts with skills.

Hack876 is where a secondary-school student first builds something real with technology, years before a first job.

AUDREY TUGWELL HENRY, PRESIDENT AND CEO, SCOTIABANK JAMAICA

"Protection for the most vulnerable among us means equipping them with the required skills and resources to be resilient."[3]

ScotiaRISE is Scotiabank's 10-year community investment to help create economic resilience, so people can access opportunities, adapt to change and take part in the economy.[1]

From 2026 its Education pillar focuses on equipping young people with the knowledge, skills and attitudes to thrive.[1]

Its CyberNauts programme trained Jamaicans for entry-level cybersecurity careers and was significantly oversubscribed.[4]

WHAT SCOTIARISE ALREADY BACKS IN JAMAICA

2024
