HACK876 × Immaculate

Immaculate girls have already won a hackathon. Hack 876 is the next one.

Hack 876 is a one-day build competition bringing about 80 Jamaican secondary-school students together to turn ideas into working prototypes.

KINGSTON • FEB 20, 2027 (TENTATIVE) • ~80 BUILDERS • TEAMS OF 3–4

01 ALREADY ON BOARD

Campion College and Hillel Academy are already in.

The inaugural Hack 876 is taking shape. We would like Immaculate students in the room with them.

Campion College

CONFIRMED SCHOOL

Hillel Academy

CONFIRMED SCHOOL

7 CONFIRMED JUDGES

Working at Tesla, Microsoft, Meta, Google, Accenture, Diageo, HashiCorp.

FREE FOR STUDENTS

No cost to apply. Food is provided on the day.

VENUE CONFIRMED

Spanish Court Hotel, Kingston.

SUPPORTED BY

Lev Beauty, Vault Motors, Norus Technologies, Frankies.

02 WHY IMMACULATE

Immaculate already builds.

In April 2024 an Immaculate team won the Crea+Her Girls in ICT Day Hackathon with Auto Farmer, an agriculture app with drone monitoring and an AI-powered water system, and took the Digicel Foundation Impact Award too.

Hack 876 adds students from other schools, a fixed deadline, industry mentors and judges who ask teams to explain their decisions. It is a chance for the girls who built Auto Farmer, and the ones coming after them, to do it again in a bigger room.

Ad Astra Per Aspera
Through difficulties to excellence.

Hackathon winners
First place at the 2024 Crea+Her Girls in ICT Day Hackathon, plus the Digicel Foundation Impact Award.

Robotics
Team Blue Flames was first runner-up at the 2023 FIRST Tech Challenge Jamaica championship.

Olympiad medals
Gold in robotics and silver in computer coding at the 2023 Caribbean Science Olympiad.

STEM Exhibition
An annual exhibition. 2026's theme: Honouring Our Past, Engineering Our Future.

> **"To equip each girl with the necessary attitude, knowledge and skills to enable her to adapt herself and remain flexible in a rapidly changing society and world."**

03 THE IMMACULATE CONNECTION

One of our judges wore the uniform.

CONFIRMED JUDGE

Sheneska Williams

Immaculate → USF

Now: HashiCorp (Terraform)

Employers are listed as each person's affiliation. They are not event sponsors unless stated elsewhere.

Sheneska Williams, a confirmed Hack 876 judge, is an Immaculate old girl. She will be in the room on the day, judging what students build.

04 THE EVENT

One day. Build something real.

~80 TOTAL BUILDERS

3–4 PER TEAM

1 DAY

A hackathon is an event where small teams build something from scratch in a single day, then present it to judges. No programming experience is needed: teams also need students who design, research, write and present. Mentors who work in industry help throughout the day.

STEP 1

Think

Find a real problem worth solving.

STEP 2

Build

Turn the idea into a working prototype.

STEP 3

Ship

Get it running before the clock stops.

STEP 4

Present

Demo it to judges and explain the decisions.

Websites · Apps · AI tools · Games · Hardware · Data projects · Automations · Agents · Interactive experiences

Not an AI-only hackathon. Teams build whatever the problem needs.

05 WHAT STUDENTS GAIN

More than a project.

It won't decide anyone's career. It gives students a useful early signal about whether building technology excites them.

Teamwork
Working with people who think differently.

Scoping
Learning what can really be built in a day.

Technical problem solving
Turning a concept into something that works.

Decision making
Choosing between ideas under real constraints.

Communication
Explaining what they built to judges and peers.

Resilience
Shipping something even when it isn't perfect.

Exposure
Meeting students and professionals beyond their usual circle.

Confidence
Moving from using technology to making it.

06 PARTICIPATION

Immaculate in the room.

Hack 876 is for students in 5th Form through Upper 6th Form. Participating schools recommend students, and recommended students apply. No place is assumed until applications and selection happen.

8–12

PLANNING RANGE · NOT GUARANTEED

For early planning, a cohort of roughly 8–12 Immaculate students fits the scale we're considering. With about 80 places across participating schools, final representation depends on applications and overall capacity.

Teams of 3–4. Students can apply solo or with friends, and teams may mix schools. Final team-formation rules are still being finalized.

WHAT WE'D LIKE FROM IMMACULATE

1. A 20-minute call with Mrs. Wilson Reynolds, or a faculty leader she nominates.
2. Support in principle for eligible Immaculate girls, in Grades 11 to 13, to take part.
3. A school-side contact, possibly from ICT or the sciences.
4. Help reaching girls in ICT, robotics, the sciences, design and business.
5. Guidance on permissions and communication with parents.

We're not asking Immaculate for financial support, or to organize anything. Hack 876 runs the event, the applications, the judging and the participant materials.

07 COMPETITION

Build it. Present it. Compete for it.

Prizes across overall placement and special categories. The exact package will keep developing as sponsors are finalized, and participating schools will get updates.

OVERALL PLACEMENT

Hack 876 Winner
The whole thing. Best overall build.
iPad per student (up to 4)

Second Place
So close. Still brilliant.
AirPods Pro per student (up to 4)

Third Place
On the podium.
US$150 gift card per student (up to 4)

SPECIAL AWARDS

Best Design
Looks great. Feels even better.
US$50 gift card per student (up to 4)

Boldest Idea
The swing nobody else took.
US$200 team project grant

People's Choice
Voted by the room.
US$50 gift card per student (up to 4)

Categories are set. Prize items are tentative and may change. Prizes are a bonus, not the reason to come.

08 WORKING WITH IMMACULATE

Twenty minutes to start.

We would like Immaculate to be part of the first Hack 876. The first step is a short call with the school's leadership.

PREPARED FOR

Mrs. Stacey Wilson Reynolds

Principal · Immaculate Conception High School

Principal of Immaculate Conception High School

We'd welcome 20 minutes with Mrs. Wilson Reynolds, or with Mrs. Tanya Morgan Francis, Upper School Vice Principal, or another faculty leader she nominates.

The Hack 876 organizing team runs event operations, applications and all official communication with students and parents.

This is an invitation. Immaculate Conception High School has not confirmed participation, nobody at the school has accepted a role, and student places are not guaranteed.

THE ONE THING WE'RE ASKING FOR NOW

A 20-minute call with Mrs. Wilson Reynolds, or a faculty leader she nominates.

Reply to the email this came with, or write to info@hack876.com, and we'll work around your timetable.

We'll fill in the details together.

Immaculate doesn't need every answer today to join the conversation.

FIRST
A 20-minute call with Mrs. Wilson Reynolds or a faculty leader she nominates.

IF IMMACULATE AGREES
Support in principle, and a school-side contact.

THEN
Teachers share the opportunity, and girls apply.

BEFORE THE EVENT
Accepted students and their families receive consent forms.

EVENT DAY
Hack 876.

DECIDED

- One-day build competition
- Venue: Spanish Court Hotel, Kingston
- 5th Form through Upper 6th Form
- About 80 places
- Schools recommend, students apply
- Applications are open

PLANNED

- Tentative date: Saturday, February 20, 2027
- A 8:00 AM to 7:30 PM day
- Lunch on the day
- Overall and special prize categories
- Industry judges and mentors

BEING FINALIZED

- Confirming the date
- School-level allocations and team rules
- Cost and transport
- Prize items
- Family details: supervision, food, emergency contacts

Participating schools and applicants will receive detailed information as each part of the event is finalized.

AD ASTRA PER ASPERA · THROUGH DIFFICULTIES TO EXCELLENCE.

Immaculate teaches through difficulties to excellence. Let's give a few Immaculate girls one day to build their way there.
