St George's already builds answers to real problems. Hack 876 gives Georgians one day to do it again.

Hack 876 is a one-day build competition bringing about 80 Jamaican secondary-school students together to turn ideas into working prototypes.

KINGSTON • FEB 20, 2027 (TENTATIVE) • ~80 BUILDERS • TEAMS OF 3–4

01 ALREADY ON BOARD

Campion College and Hillel Academy are already in.

The inaugural Hack 876 is taking shape. We would like St George's students in the room with them.

Campion College

CONFIRMED SCHOOL

Hillel Academy

CONFIRMED SCHOOL

7 CONFIRMED JUDGES

Working at Tesla, Microsoft, Meta, Google, Accenture, Diageo, HashiCorp.

FREE FOR STUDENTS

No cost to apply. Food is provided on the day.

VENUE CONFIRMED

Spanish Court Hotel, Kingston.

SUPPORTED BY

Lev Beauty, Vault Motors, Norus Technologies, Frankies.

02 WHY ST GEORGE'S

St George's already builds.

In March 2026 St George's won the People's Choice Award at the JPS Foundation EcoSpark Innovation Challenge for a rain garden within a miniature sponge city, and both of its robotics teams finished in the top ten at the FIRST Tech Challenge Jamaica championship.

Hack 876 adds students from other schools, a fixed deadline, industry mentors and judges who ask teams to explain their decisions. It is ethical problem-solving under a clock: the same instinct behind the sponge city, in one day.

Ad Majorem Dei Gloriam
For the greater glory of God.

Climate innovation
People's Choice Award at EcoSpark 2026, for a sponge city that absorbs and stores rainwater.

Robotics
Knight Bots 5th and Trojans 9th at FTC Jamaica 2026, both qualifying for the next stage.

Maths
UTech Mathematics Quiz champions in 2026, for the second year running.

Enterprise
GreenCycle Solutions won Junior Achievement Jamaica's 2023–24 company programme and represented Jamaica abroad.

> **"We continue to monitor our curriculum and will try to adjust to ensure that our students' learning is relevant to our changing times."**
>
> Mrs. Margaret Campbell, Principal, St George's College · Jamaica Gleaner, September 2024

One day. Build something real.

~80 TOTAL BUILDERS

3–4 PER TEAM

1 DAY

A hackathon is an event where small teams build something from scratch in a single day, then present it to judges. The word comes from “hack” in the sense of putting something together quickly. It has nothing to do with breaking into computers. No programming experience is needed, and mentors who work in industry help throughout the day.

STEP 1

Think

Find a real problem worth solving.

STEP 2

Build

Turn the idea into a working prototype.

STEP 3

Ship

Get it running before the clock stops.

STEP 4

Present

Demo it to judges and explain the decisions.

Websites · Apps · AI tools · Games · Hardware · Data projects · Automations · Agents · Interactive experiences

Not an AI-only hackathon. Teams build whatever the problem needs.

04 WHAT STUDENTS GAIN

More than a project.

It won't decide anyone's career. It gives students a useful early signal about whether building technology excites them.

Teamwork
Working with people who think differently.

Scoping
Learning what can really be built in a day.

Technical problem solving
Turning a concept into something that works.

Decision making
Choosing between ideas under real constraints.

Communication
Explaining what they built to judges and peers.

Resilience
Shipping something even when it isn't perfect.

Exposure
Meeting students and professionals beyond their usual circle.

Confidence
Moving from using technology to making it.

05 PARTICIPATION

St George's in the room.

Hack 876 is for students in 5th Form through Upper 6th Form. Participating schools recommend students, and recommended students apply. No place is assumed until applications and selection happen.

8–12

PLANNING RANGE · NOT GUARANTEED

For early planning, a cohort of roughly 8–12 St George's students fits the scale we're considering. With about 80 places across participating schools, final representation depends on applications and overall capacity.

Teams of 3–4. Students can apply solo or with friends, and teams may mix schools. Final team-formation rules are still being finalized.

WHAT WE'D LIKE FROM ST GEORGE'S

1. A 20-minute call with Mrs. Campbell, or a faculty leader she nominates.
2. Support in principle for eligible Georgians, in 5th Form through Upper 6th, to take part.
3. A school-side contact, possibly from Business and IT, pre-engineering or robotics.
4. Help reaching students in robotics, IT, maths, the sciences and business.
5. Guidance on permissions and communication with parents.

We're not asking St George's for financial support, or to organize anything. Hack 876 runs the event, the applications, the judging and the participant materials.

06 COMPETITION

Build it. Present it. Compete for it.

Prizes across overall placement and special categories. The exact package will keep developing as sponsors are finalized, and participating schools will get updates.

OVERALL PLACEMENT

Hack 876 Winner
The whole thing. Best overall build.
iPad per student (up to 4)

Second Place
So close. Still brilliant.
AirPods Pro per student (up to 4)

Third Place
On the podium.
US$150 gift card per student (up to 4)

SPECIAL AWARDS

Best Design
Looks great. Feels even better.
US$50 gift card per student (up to 4)

Boldest Idea
The swing nobody else took.
US$200 team project grant

People's Choice
Voted by the room.
US$50 gift card per student (up to 4)

Categories are set. Prize items are tentative and may change. Prizes are a bonus, not the reason to come.

07 WORKING WITH ST GEORGE'S

Twenty minutes to start.

We would like St George's to be part of the first Hack 876. The first step is a short call with the school's leadership.

PREPARED FOR

Mrs. Margaret Campbell

Principal · St George's College

Principal · Prime Minister's Medal of Appreciation for Service to Education, 2025

We'd welcome 20 minutes with Mrs. Campbell, or with Mr. Huntley Anderson, Vice Principal, or another faculty leader she nominates.

The Hack 876 organizing team runs event operations, applications and all official communication with students and parents.

This is an invitation. St George's College has not confirmed participation, nobody at the school has accepted a role, and student places are not guaranteed.

THE ONE THING WE'RE ASKING FOR NOW

A 20-minute call with Mrs. Campbell, or a faculty leader she nominates.

Reply to the email this came with, or write to info@hack876.com, and we'll work around your timetable.

We'll fill in the details together.

St George's doesn't need every answer today to join the conversation.

FIRST
A 20-minute call with Mrs. Campbell or a faculty leader she nominates.

IF ST GEORGE'S AGREES
Support in principle, and a school-side contact.

THEN
Teachers share the opportunity, and students apply.

BEFORE THE EVENT
Accepted students and their families receive consent forms.

EVENT DAY
Hack 876.

DECIDED

- One-day build competition
- Venue: Spanish Court Hotel, Kingston
- 5th Form through Upper 6th Form
- About 80 places
- Schools recommend, students apply
- Applications are open

PLANNED

- Tentative date: Saturday, February 20, 2027
- A 8:00 AM to 7:30 PM day
- Lunch on the day
- Overall and special prize categories
- Industry judges and mentors

BEING FINALIZED

- Confirming the date
- School-level allocations and team rules
- Cost and transport
- Prize items
- Family details: supervision, food, emergency contacts

Participating schools and applicants will receive detailed information as each part of the event is finalized.

AD MAJOREM DEI GLORIAM · FOR THE GREATER GLORY OF GOD.

St George's has been educating Jamaica since 1850. Let's give a few Georgians one day to build something new.
