HACK876 × ESPRESSIF SYSTEMS

PRIVATE PARTNERSHIP PROPOSAL

Put ESP32 boards in students' hands.

Hack876 is a free one-day hackathon in Kingston, Jamaica, for high-school students aged 15 to 19, many at their first hackathon. Teams that want to build hardware could build it on ESP32.

WHAT HACK876 IS

A free one-day build competition in Kingston, Jamaica, for about 80 high-school students aged 15 to 19, working in teams of 3 to 4. Teams pick a real problem and finish the day with a working prototype and a pitch to judges.

When: Saturday, February 20, 2027 (tentative)

Where: Spanish Court Hotel, Kingston, Jamaica (confirmed)

Who: About 80 students, roughly 20 teams

Organisers: Nadani Dixon and Stefen Ewers

WHY ESPRESSIF

Espressif invites hardware and hackathon sponsorship requests through its own form, and says its vision is rooted in democratizing technology access.[1]

WHAT WE ARE ASKING

About 30 ESP32 development boards, or vouchers for them, for teams that want to build hardware, plus optional prize support for a Best hardware build prize.

WHAT IT MAKES POSSIBLE

Any team that chooses hardware can build a working connected device in one day, alongside teams building apps and websites. Nothing about the event depends on it.

WHAT ESPRESSIF RECEIVES

Espressif's logo on hack876.com and on stage, a thank-you in the programme, a feature on Instagram @hack876ja, and a recap with photos.

THE NEXT STEP

We will send Espressif's sponsorship form with this proposal attached, and would welcome a reply on boards or vouchers.

Nadani Dixon and Stefen Ewers, Hack876 organisers · info@hack876.com · Book a call: calendly.com/hack876-info/30min

01 THE REQUEST

What we are asking for, and how it would be used.

We are asking for hardware, not cash. Hack876 is free for students, and P237 Labs, Lev Beauty, Vault Motors, Norus Technologies, Frankies and .xyz already support the day. About 30 ESP32 boards would let any team that wants to build hardware do it, without making hardware the point of the event.

- ✓ **About 30 ESP32 development boards, such as the ESP32-S3-DevKitC-1, for teams that want to build hardware**
- ✓ **Or vouchers for the same boards, if that suits Espressif better**
- ✓ **Optional: prize support for a Best hardware build prize, decided by the judging panel**

QUANTITIES, TIMING AND DELIVERY

About 30 boards, so every team that picks hardware has one, with spares.

Boards or vouchers in Kingston by early February 2027, with time for customs. Hack876 would arrange clearance.

Boards stay at a supervised hardware table on the day, with an adult on hand.

WHY ESPRESSIF

Espressif's sponsorship request form lists hardware sponsorship and hackathon or event sponsorship, and covers the Central America and Caribbean region.[1]

Its education programme offers documentation and open-source projects for every level, and lists student hackathons such as NUS Hack&Roll 2025 and SUTD What The Hack 2024.[3]

Espressif says its chips support over 100,000 GitHub projects and appear in more than 200 books in over 10 languages.[2]

WHAT ESPRESSIF WOULD RECEIVE

Hardware Partner · Inaugural Hack876

- ✓ **Logo on hack876.com and on stage**
- ✓ **A thank-you in the event programme**
- ✓ **A feature on Instagram, @hack876ja**
- ✓ **A post-event recap with photos**

Who is running it, and what we need from you.

ORGANISERS	Nadani Dixon (Redfin) and Stefen Ewers (Georgia Tech) lead the event and are the contacts for this proposal.
VENUE	Spanish Court Hotel in Kingston is confirmed as the venue.
DATE	Saturday, February 20, 2027 is the working date. It is tentative until confirmed with schools.
JUDGES	7 judges have confirmed, from Tesla, Microsoft, Meta, Google, Accenture, Diageo, HashiCorp.

Schools: 2 confirmed, 1 in talks, 6 not yet confirmed, from a network of 9 in Kingston. Partners and donors do not receive student contact details, and there are no sign-ups or selling on the day. Photos and names are used only with school and parent consent.

THE DECISION WE ARE ASKING FOR

We will send Espressif's sponsorship form with this proposal attached, and would welcome a reply on boards or vouchers.

Espressif takes sponsorship requests through a form on its website.[1]

Your contact: Nadani Dixon and Stefen Ewers, Hack876 organisers · **info@hack876.com** · **Book a call: calendly.com/hack876-info/30min**

WHAT YOU WOULD RECEIVE AFTERWARDS: A WRITTEN RECAP

- ✓ **How many students, teams and schools took part**
- ✓ **What the teams built, with the finalist projects described**
- ✓ **How your contribution was used**
- ✓ **Photos, only where schools and parents have consented**

We will document the recognition delivered and report the results we have. Audience reach and commercial outcomes are not guaranteed. Student contact details are not shared.
