HACK876 × DIGIVIEW SECURITY

PRIVATE PARTNERSHIP PROPOSAL

Show students how technology works beyond the screen.

Most students meet technology as an app. DigiView's technicians meet it as cable, power, cameras and a network that has to work on site. Hack876 would like students to see that side too.

WHAT HACK876 IS

A one-day build competition in Kingston for about 80 secondary-school students, 5th Form through Upper 6th Form, working in teams of 3 to 4. Teams pick a real problem and finish the day with a working prototype and a pitch to judges.

When: Saturday, February 20, 2027 (tentative)

Where: Spanish Court Hotel, Kingston (confirmed)

Who: About 80 students, roughly 20 teams

Organisers: Nadani Dixon and Stefen Ewers

WHY DIGIVIEW

DigiView installs the systems it sells, through its own trained technicians. That is the hands-on side of technology most students never see.

WHAT WE ARE ASKING

A Bronze contribution toward the equipment and materials teams build with. If a contribution is not possible, technicians as mentors would be just as welcome.

Bronze Partner: J$50,000 to below J$200,000. Any amount within the level is welcome.

WHAT IT MAKES POSSIBLE

Teams building physical projects get parts to work with, and people who can show them how wiring, power and networking fit together.

WHAT DIGIVIEW RECEIVES

Bronze recognition, a written recap, and about 80 students who see installation and networking presented as a career.

THE NEXT STEP

A reply from the marketing team on a contribution, mentors, or both.

01 WHY DIGIVIEW

Technology you can hold, wire and install.
