HACK876 × FIGMA FOR EDUCATION

PRIVATE PARTNERSHIP BRIEF

Build the thing itself.

Hack876 gives Jamaican high-school students one day to turn an idea into something real. We would love Figma to help them make it look and feel right.

WHAT HACK876 IS

A one-day build competition in Kingston for about 80 secondary-school students, 5th Form through Upper 6th Form, working in teams of 3 to 4. Teams pick a real problem and finish the day with a working prototype and a pitch to judges.

When: Saturday, February 20, 2027 (tentative)

Where: Spanish Court Hotel, Kingston (confirmed)

Who: About 80 students, roughly 20 teams

Organisers: Nadani Dixon and Stefen Ewers

WHY FIGMA

Figma for Education offers its design tools free to eligible students and educators, with age and region limits for high-school use.

WHAT WE ARE ASKING

Advice on the right access route for Jamaican high-school students, and a short training session or resources before the day. No accounts are requested.

WHAT IT MAKES POSSIBLE

Teams that want to design and prototype in Figma can do so properly, within Figma's own age and region rules. Other teams use other tools.

WHAT FIGMA RECEIVES

Design Tools Partner recognition, a written recap, and the option to present the existing Best Design award.

THE NEXT STEP

A reply from the Education team on which access route, if any, applies in Jamaica.

Nadani Dixon and Stefen Ewers, Hack876 organisers · info@hack876.com

01 THE REQUEST

What we are asking for, and how it would be used.

We are not asking for accounts. We are asking for Figma's advice on how Jamaican students can use it properly, and whether Figma would like to present the Best Design award.

- **Presenting the existing Best Design award, if Figma would like to**
- **Guidance on access for Jamaican high-school students**
- **A short live training session for students or teachers**
- **Teaching resources from Figma's high-school curriculum**

WHY FIGMA

In 2020 Figma for Education opened up to bootcamps, school-sponsored hackathons and other kinds of classrooms, as part of making design accessible to everyone.[3]

Figma says it has always made an effort to show up at hackathons, and invites organisers to email education@figma.com about ways it can help.[1]

Where Figma for Education is available, verified high-school students and educators get the Professional plan free.[4]

WHAT FIGMA WOULD RECEIVE

Design Tools Partner · Inaugural Hack876

A meaningful in-kind contribution can be recognized at an equivalent level, based on a usable value agreed together. The advertised value of software credits or volunteer hours is not counted as cash automatically.

Figma could present the existing Best Design award, if it is still available. The judging panel decides the winner, and the award keeps its name.

Real design tools for the teams that want them.

Figma for design and prototyping on the day, for teams that want it. Nothing about the event depends on it, and we will not promise any student an account.

POSSIBLE STRUCTURES

- School route: a participating school contacts Figma for Education and signs its terms for schools, if Figma offers that in Jamaica.
- Self-serve route: only students who are old enough to consent on their own and have a school-issued email apply for the free Education plan.
- Whatever Figma recommends instead. If no route fits, Figma stays optional and teams design with other tools.
- No AI features. Figma Make, the agent in Figma Design and Figma Sites are not available to high-school Education users, and teams do not need them.

AGE AND ACCOUNT TERMS

Figma's Help Center says high-school students must be old enough to consent to the services by themselves, not by a parent or guardian, must apply with a school-issued email, and that Figma for Education is only available in select regions. Figma's Terms require users to be of legal age in their jurisdiction, and 18 or older for Figma AI. Hack876 treats every student under 18 as a minor who needs a parent or guardian's consent. We have not confirmed that Figma for Education is available in Jamaica, Figma has not approved access for our students, and we will follow whatever Figma advises.

GROUND RULES WE WILL HOLD OURSELVES TO

No marketing or sign-up drives aimed at students, and no Figma branding beyond what Figma approves.

No student data collected for, or shared with, Figma. Any account is between a student, their school and Figma, under Figma's own terms.

We follow Figma's age and account rules. Students who don't qualify are never asked to work around them.

03 DELIVERY AND NEXT DECISION

Who is running it, and what we need from you.

ORGANISERS	Nadani Dixon (Redfin) and Stefen Ewers (Anthropic Claude Ambassador) lead the event and are the contacts for this proposal.
VENUE	Spanish Court Hotel in Kingston is confirmed as the venue.
DATE	Saturday, February 20, 2027 is the working date. It is tentative until confirmed with schools.
JUDGES	7 judges have confirmed, from Tesla, Microsoft, Meta, Google, Accenture, Diageo, HashiCorp.

Schools: 1 confirmed, 2 in talks, 6 not yet confirmed, from a network of 9 in Kingston. Sponsors do not receive student contact details, and there are no sign-ups or selling on the day. Photos and names are used only with school and parent consent.

THE DECISION WE ARE ASKING FOR

A reply from the Education team on which access route, if any, applies in Jamaica.

Outside its listed regions, Figma may only be used by students above the age of consent in their jurisdiction, and Figma asks schools to reach out at education@figma.com.[6]

Your contact: Nadani Dixon and Stefen Ewers, Hack876 organisers · **info@hack876.com**

WHAT YOU WOULD RECEIVE AFTERWARDS: A WRITTEN RECAP

- ✓ **How many students, teams and schools took part**
- ✓ **What the teams built, with the finalist projects described**
- ✓ **How your contribution was used**
- ✓ **Photos, only where schools and parents have consented**

We do not report reach, impressions or leads, and we do not share student contact details.
