HACK876 × TANK-WELD

PRIVATE PARTNERSHIP PROPOSAL

Jamaica needs more young people who know they can build.

Tank-Weld began as a steel fabrication company and has spent years putting homework and computer centres into communities. Hack876 gives students one day to find out that building things is something they can do.

WHAT HACK876 IS

A one-day build competition in Kingston for about 80 secondary-school students, 5th Form through Upper 6th Form, working in teams of 3 to 4. Teams pick a real problem and finish the day with a working prototype and a pitch to judges.

When: Saturday, February 20, 2027 (tentative)

Where: Spanish Court Hotel, Kingston (confirmed)

Who: About 80 students, roughly 20 teams

Organisers: Nadani Dixon and Stefen Ewers

WHY TANK-WELD

Tank-Weld began as a steel fabrication company and has built computer and homework centres in Jamaican communities.

WHAT WE ARE ASKING

Engineers and technical staff as mentors, and safe materials for physical prototypes.

WHAT IT MAKES POSSIBLE

Teams building physical things get advice from people who make things for a living, and light materials to build with.

WHAT TANK-WELD RECEIVES

In-kind recognition, a written recap of what teams built, and Tank-Weld staff working with about 80 students for a day.

THE NEXT STEP

A reply on whether mentors or materials are possible, and who should coordinate.

01 THE REQUEST

What we are asking for, and how it would be used.

People and practical help come first. If a monetary contribution suits Tank-Weld better, Silver is our suggestion and any level is welcome.

- ✓ **Safe prototyping materials**
- ✓ **A careers talk**
- ✓ **Help with moving equipment**

QUANTITIES, TIMING AND DELIVERY

Mentors: any part of the build period on the day, in person at Spanish Court Hotel.

Materials: light, safe items only, agreed in advance with the Hack876 team.

No welding, cutting or other hazardous fabrication at the event.

Help moving equipment to the venue, only if Tank-Weld has capacity.

WHY TANK-WELD

Tank-Weld was formed in 1970 as a steel fabrication company. Today the group also runs heavy haulage, equipment and piling businesses, and operates at the Rio Bueno port.[2]

Over the years it has built computer centres and homework centres, basketball courts and soccer stadiums, and repaired schools and churches.[1]

Since 2006 its scholarship programme has grown to more than 70 scholarships a year.[1]
