HACK876 × Hillel

STUDENT FLYER

Build something real in one day.

Hack 876 is a one-day competition for secondary-school students. In a team of 3 to 4, you pick a real problem, build something that tackles it, and show it to judges who work in technology.

WHEN TENTATIVE
Saturday, February 20, 2027

WHERE
Spanish Court Hotel, Kingston

HOURS
8:00 AM to 7:30 PM. One day, not overnight.

WHO
Students in 5th Form through Upper 6th Form (Grades 11 to 13 at Hillel)

YOU DO NOT NEED TO CODE

No programming experience is needed. Teams also need people who design, research, write, organize and present.

A prototype is an early version of an idea that you can show or demonstrate. It does not have to be finished or ready to sell.

YOU COULD BUILD

- Websites
- Apps
- AI tools
- Games
- Hardware
- Data projects
- Automations
- Agents
- Interactive experiences

AI tools are allowed, not required. You will not need to buy any.

HOW TO APPLY

1. Read the details at hack876.com/schools/hillel.
2. Fill in the form at hack876.com/apply. Apply alone or with friends.
3. The organizers review applications and send you a decision.

Places are limited to about 80 students across several schools, so applying does not guarantee a place. It costs nothing to apply.

Food is provided. Teams can mix schools. Prizes for the top teams.

One of the judges is a former Hillel student. Parents and guardians can find full details at the address below.
